APPENDIX A, PART 9

SOCKETS

Chronological Record of Price Filings by Companies

COMPANY #1 - (INCOMPLETE LINE)

1st Filing

December 8, 1933.....Effective December 12, 1933.
The original filing of this company was on about 25 sockets of various types on a list basis. This is an incomplete line. The price filing does not indicate a customer classification, but a letter of February 13, 1935 to Mr. Jockers states that they sell only to Fixture and Portable Lamp & Shade Manufacturers.
Std. Pkge 50-5%
Less Std. Pkge. 45%.

2nd Filing

January 13, 1934..... Effective January 23, 1934.
New filing discontinues two items.

3rd Filing

February 2, 1934.....Effective February 4, 1934.
Downward revision in price of five sockets to meet Company #18 filing filed 2/1/34 and effective 2/4/34.

4th Filing

March 29, 1934..... Effective April 2, 1934.
General downward revision of prices and quotation of net price per hundred to meet competition of Company #18.

5th Filing

May 26, 1934.....Effective June 5, 1934.
Downward revision of one socket to meet competition of Company #32 and Company #18, filings of 5/14/34 and 5/21/34.

6th Filing

July 9, 1934.....Effective July 19, 1934
Adding one new item.
Filed February 9, 1935.
Price changed on new item filed above to meet Companies #2 #3 and #23, returned by Mr. Jockers for not having customer classification.

February 20, 1935 ..... Effective February 25, 1935.
Effective date of price change on item mentioned above.

COMPANY #2 - (Complete Line)

1st Filing

December 12, 1933..... Effective December 13, 1933.
List prices quoted on medium line of sockets together with discounts extended to distributors, and based on standard package, carton and

and less than carton quantities. Terms extended 2%, 10th proximo net 10th of second month. Only other quotation given is to competing manufacturers who will be quoted on request.

Distributors Discount:
Standard Package 50-5%
Carton 45%
Less Carton 35%

2nd Filing.

January 29, 1934..... ..... Effective February 8, 1934.
Downward revision of list price on some items, and adding several items not quoted in original filing.

3rd Filing

February 1 1934.....Effective February 4, 1934
Dropping list on two items to meet Company #18.

4th Filing

March 6, 1934.....Effective March 11, 1934
Dropping list on two items to meet Company #18.

5th Filing

March 6 1934..... ..... Effective March 16, 1934
Drop list on four items. One of these items is offered at same price as previous filing but with added parts. Two items to meet Company #8 filing 2/4/34 and two to meet Company #22 effective 2/22/34.

6th & 7th Filings

Average reduction of 20% in net price.

8th Filing

April 17, 1934.....Effective April 19, 1934.
Net price quoted on one item/lower than previous net to meet Company #17. 25%

9th Filing

April 17, 1934.....Effective April 21, 1934.
Net price quoted for one item #43310, 20% lower than previous net and to meet Company #18.

10th Filing

May 23, 1934.....Effective May 24, 1934.

COMPANY #2 - (COMPLETE LINE)

10th Filing (Continued)

Net price on #43310 reduced 3½% - one other item reduced 30% - both to meet Company #18.

11th Filing

May 29, 1934 .....Effective June 8, 1934
Prices on three new items. June 1 - June 11.
#43310 raised to price effective April 21, 1934.

12th Filing

June 1, 1934..... Effective June 11, 1934.
Price raised on one item of preceding filing.

13th Filing

June 14, 1934..... .....Effective June 24, 1934.
Net price dropped on five items to meet competition of Company #18.

14th Filing

July 7, 1934.....Effective July 17, 1934
Adding six new items. All porcelain sockets.

15th Filing

July 14, 1934..... Effective July 17, 1934
Withdrawing prices quoted on porcelain sockets for this date.

16th Filing

July 31 1934.....Effective August 10, 1934.
Refiling prices for above six porcelain sockets.
New prices average about 10% higher than original prices.

17th Filing

September 15, 1934.....Effective September 25, 1934
Adding two new items both porcelain sockets.

18th Filing

Nov. 14, 1934..... Effective Nov. 24, 1934
Adding one new item.

19th Filing

Nov. 20, 1934..... Effective November 30, 1934
Adding two new Bakelite sockets.

20th Filing

COMPANY #2

20th Filing (Continued)

Jan. 21, 1935..... Effective January 31, 1935
Quoted net prices to Fixture and Portable Lamp Manufacturers. List embraces about 40 A-line sockets. Prices quoted are approximately 10% below those of 4/2/34.

21st Filing

Feb. 21, 1935..... Effective February 25 1935.
Prices quoted above to Fixture and Portable Lamp Manufacturers extended to all buyers to meet Company #13.

22nd Filing

March 1, 1935.....Effective March 1, 1935
Balance of items quoted on 4/2/34 numbering about 60 items dropped to approximate level of filing of 2/25/35.
Prices quoted on last filing average about 60 to 65% of calculated net prices of the original filing. Practically all of product line is on net basis and about 13 items have been added. The company now offers a very complete line of sockets.

COMPANY #3 -(INCOMPLETE LINE)

April 2, 1934.....Effective April 2, 1934
Net prices to Class J customers revised downward to meet competition of Company #18.
List prices of about 15 items revised downward from 15% to 20% to meet competition of Company #18.

7th Filing

April 16, 1934.....Effective April 16, 1934
Revised list on one item to meet Company #29.

8th & 9th Filings

April 17, 1934..... Effective April 17, 1934

1. Lower list on six brass shell sockets.
2. Lower Class J net on one item.

10th Filing

April 27, 1934.....Effective April 28, 1934
List lowered about 40% on three items to meet Company #18.

11th Filing

May 3, 1934.....Effective May 13, 1934
Net price per thousand on three items to Class J customers.

12th Filing

April 11, 1934.....Effective May 13, 1934
Class J net on one item dropped 15% to meet Company # 22.

13th Filing

July 9, 1934.....Effective May 18, 1934
Dropped list 10% on one item to meet competition.

14th Filing

August 3, 1934..... Effective August 13, 1934

COMPANY #4A

14th Filing (Continued)

List prices revised downward slightly on eleven sockets.

15th Filing

August 25 1934.....Effective September 1, 1934
Lower net prices on thousand lot bulk packing for Class J customers together with terms of sale, to meet Companies #14 and #16.

16th Filing

October 15, 1934.....Effective October 25, 1934
Catalogue 25 with list prices and distributors discounts filed for Company #4A, and Catalogue 5 with list prices and distributors discounts for Company #4B also filed. Some prices have been lowered slightly from previous filings.

17th Filing

November 17, 1934..... Effective November 27, 1934
Class J price lowered on ten thousand lots of one item to meet Company #7.

18th Filing

November 19, 1934..... Effective November 20, 1934
List prices on two Mogul sockets lowered to meet Company #7.

19th Filing

November 30, 1934..... Effective December 10, 1934
New item. List price $101.00 per hundred quoted on standard package, $80.00 per hundred in hundred lots.

20th Filing

December 13, 1934.....Effective December 24, 1934
Lower Class J net quoted on one item. Also eliminate ten thousand lot price of filing of 8/23/34.

21st Filing

December 26, 1934.....January 5 1935
Lower list prices quoted on one item in standard package lots and one hundred lots.

22nd & 23rd Filings

December 27, 1934.....Effective January 7, 1935
1. Two new items added.
2. List prices increased slightly on three items in lots of one hundred or over.

COMPANY # 4A

24th Filing

December 13, 1934..... January 26, 1935
Class J net lowered on four items to meet Company #14.

COMPANY #5 - (INCOMPLETE LINE)

1st Filing

December 15, 1933..... Effective December 12, 1933
Company lists an incomplete line of less than 20 sockets. Discounts of 50 and 5% are quoted to distributors only.

2nd Filing

March 20, 1934..... Effective March 30, 1934
Net price list quotes the complete line at Wholesale prices. Terms 2% 10 days net 30. Competing manufacturers will be quoted up to 50% off filed prices.

3rd Filing

April 4, 1934..... Effective April 14, 1934
Net price lowered on most of line averaging from 10 to 20%.

4th Filing

May 3, 1934..... Effective May 13 1934
Correction in net price of previous filing on one item.

5th Filing

July 27, 1934.....Not effective
Filing on two items received on this date returned by Mr. Jockers for correction.

6th Filing

August 3, 1934.....Effective August 13, 1934
Same prices as filing of 7/27/34 filed. Full freight allowed on shipments weighing 100 lbs. or more, or a total net value of $60.00 or more. Freight allowed regardless of weight or value to New York Chicago, San Francisco and Los Angeles.

7th Filing

September 29, 1934.....Effective October 9, 1934
Delivery terms extended in the above filing are extended on one more item.
NOTE: These delivery terms apparently apply only to the three items quoted in the last two filings.

COMPANY #6 - (COMPLETE LINE)

1st filing

December 11, 1933..... Effective December 12, 1933.
NOTE: Principal business of this company is in the manufacture of industrial lighting equipment and fixtures, and although they stock a very complete line, in many cases items are of a different type or quality than sockets offered by other manufacturers. The company quotes to distributors on a package basis, and also offer discounts on list value basis. About 25 items are offering to Class J customers on a net basis.*

2nd filing

March 8, 1934.....Effective March 19, 1934.
Net prices filed on about 20 items to Class J manufacturers. Competing manufacturers will be quoted up to 50 and 20% from published list prices.

3rd Filing

December 17, 1934..... Effective December 27, 1934.
Two new items added.

4th Filing

February 1, 1935 .....Effective February 11, 1935.
Discount sheet cancelling all previous quotations and offering wholesale discounts on package basis.

5th Filing

February 9, 1935..... Effective February 19, 1935.
List prices filed for six items. Distributors who accept responsibility for credit and service are given a maximum protection for 7½%. Class J customers are granted distributors' discounts.

NOTE: Filing of 2/11/35 extends wholesale discounts and cancels all previous discount sheets. However, the last filing refers to distributors, and "discounts applying to various classifications of trade."

* Standard Package - 50%
Carton quantity - 40%
Less carton " - 30%

Up to $15 list value - 20%
$15-$60 - 30%
$60 and over - 40%

COMPANY #7 - (COMPLETE LINE)

This company makes a complete line of sockets and is one of the large units in the industry.

1st Filing

December 13, 1933.....Effective December 12, 1933
Original filing. Quoting list prices together with distributors and wholesale discounts. Class J customers classified as distributors. Some net quantity prices are quoted, but do not apply to Residential and Portable Lamp and Fixture Manufacturers, and apply to orders of not less than one thousand pieces in one shipment to one destination. Competing manufacturers will be quoted up to 20% off net price of price bulletin or quantity net price sheet.

2nd Filing

January 17, 1934.....Effective January 27, 1934
Net price quoted on ten thousand lots on one item, which is about 60% lower than previous net per hundred.

3rd Filing

January 25, 1934.....Effective January 25, 1934
Distributors and wholesalers discounts and terms.

4th Filing

February 19, 1934.....Effective February 29, 1934.
Lower net price quoted on thousand lot bulk packing on one item.

Adding three new items.

14th Filing

January 14, 1935 .....Effective January 14, 1935.
Quoting to competing manufacturers up to 20% below best filing price to wholesalers.

15th Filing

February 1, 1935 ..... Effective January 31, 1935
To fixture and portable lamp manufacturers only. Lower net prices per hundred on 45 sockets. These prices all appear to be about 10% lower than previous net prices filed to meet competition of Company #2.

16th Filing

February 21, 1935.....Effective February 25, 1935
Prices in preceding filing to Portable Lamp and Shade manufacturers, are extended to all buyers to meet competition of Company #18.

Distributors Discount

		Wholesale	
Standard Packages	50-5%	Up to $15.00	- 20-5%
Carton	45%	$15 to $60	- 30-5%
Less Carton	35%	Over $60.00	- 40-5%

COMPANY #9 (INCOMPLETE LINE)

This company makes an incomplete line of sockets numbering only about 15 items.

COMPANY #9 (Cont'd)

1st Filing

December 12, 1933.....Effective December 12, 1933
Net prices per hundred quoted to all buyers. Terms and delivery are quoted only for syndicate stores. Full freight allowed regardless of weight, to New York, Newark, Jersey City, Hoboken and Chicago. 5% off the net on delivery shipment to warehouses.

2nd Filing

January 4, 1934.....Effective December 22, 1933.
Distributors' discounts quoted on packaging basis. The company now quotes a list price on about 100 sockets.

3rd Filing

February 26, 1934.....Effective March 8, 1934
Complete refiling of sockets superseding all previous quotations. List prices remained at the same level. Apparently this sheet is for all buyers, as the only discount extended is "maximum trade discount" - 50-5%.

4th Filing

March 12, 1934.....Effective March 12, 1934
Supplementing preceding price filing. Quoting usual delivery terms.

5th Filing

April 2, 1934.....Effective April 2, 1934
Lower list prices filed on about 40 items to meet competition. Prices about 20% lower.

6th Filing

May 23, 1934.....Effective May 24, 1934 Lower list price on one socket to meet Company #12.

7th Filing

May 23, 1934.....Effective June 2, 1934
Lower list prices on six socket parts to meet Company #25.

8th Filing

June 1, 1934 (Kardex, June 5).....Effective June 1, 1934
(a) Revised delivery terms. Freight allowed on 100 lbs. or total net value of $60.00 or more.
(b) Regardless of weight or value to syndicate stores New York, Newark, Hoboken, Jersey City, Chicago and San Francisco. To meet Company #23.

COMPANY #9 (Cont'd)

9th Filing

July 5, 1934.....Effective July 8, 1934 at
Lower prices on two nickel finishes to meet Co. #23 and Co. #18.

10th Filing

October 1, 1934.....Effective October 1, 1934
Change in delivery. Freight allowed N.C.G. and various suburban cities have been added to syndicate store delivery zones to meet Company #21.

11th Filing

October 8, 1934.....Effective October 8, 1934.
Adding "freight allowed to syndicate stores on 50 lbs. or $30. value" to the above to meet Company #21.

12th Filing

December 1, 1934.....Effective December 11, 1934.
Lower list price on one item.

COMPANY #10 - (COMPLETE LINE)

1st Filing

December 18, 1933.....Effective January 2, 1934.
Original filing. This company manufactures a fairly complete line of sockets and made only two price filings during the period that the price call was in effect. Both filings had rather complicated delivery allowances based on three delivery zones in the United States, which had been set up by the company. Three different discounts for each zone were extended, depending upon the list value of the order.

This applied to all buyers other than distributors. Distributors were quoted discounts for warehouse shipments which were graduated according to list value, and freight was allowed if order was in excess of $200,00 less.

2nd Filing

March 2, 1934.....Effective March 12, 1934.
This file supersedes other quotations on sockets and although slightly more complicated than usual filings in this industry, it is noted that the trade customs, delivery, terms, etc., are considerably more in line with the industry practice than was the original filing. This final filing does not give any change in list prices from the original filing.

COMPANY 10

Distributors Discount

On wholesale shipments -	List value up to $15	- 25%
	$15 to $100	- 30%
	Over $100	- 35%
	plus 2½% of net if the total list is under $200.	
Suggested resale "	List value up to $15	- 8%
	$15 to $50	- 15%
	Over $50	- 23%

COMPANY #11 - (INCOMPLETE LINE)

This company manufactures an incomplete line consisting of about 20 sockets and these are quoted on a net basis per hundred. Competing manufacturers are quoted up to 25% off net.

1st Filing

February 6, 1934.....Effective February 22, 1934.
Original Filing.. Net terms and delivery.

2nd Filing

February 12, 1934.....Effective February 22, 1934.
Corrections on original filing.

3rd Filing

April 17, 1934.....Effective April 27, 1934.
Lower net prices quoted on complete line which now numbers about twice as many items as original filing.

4th Filing

August 11, 1934.....Effective August 21, 1934.
Terms of payment filed 2% 10th prox. net 60 instead of net 30 as in original filing. Also, adding "freight allowances on total net value of $60.00 or more" in addition to usual delivery terms. Freight allowed regardless of weight or value to "New Jersey, Chicago, San Francisco, Los Angeles and Metropolitan areas."

5th Filing

August 25, 1934.....Effective Spetember 4, 1934.
Adding one item omitted from filing of 8/21/34.

6th Filing

February 15, 1935.....Effective February 25, 1935.
Quoting net prices per thousand to Portable Lamp and Fixture
9822 Manufacturers on practically a complete line.

COMPANY #12 - (INCOMPLETE LINE)

This company handles few sockets. Their principal business is apparently in electrical specialties.

1st Filing

December 12, 1933.....Effective December 12, 1933
Original filing. Distributors' net price cataloque quoting net prices on less than 10 sockets.

2nd Filing

January 22, 1934.....Effective February 1, 1934
Adding one new item.

3rd Filing

May 10, 1934.....Effective May 20, 1934
Lower prices on five items to meet competition.

4th Filing

June 22, 1934.....Effective July 2, 1934
Lower net prices on three sockets.

5th Filing

August 18, 1934.....Effective August 28, 1934.
Lower net price on one item to meet competition.

6th Filing

February 20, 1935.....Effective March 2, 1935
Lower net per thousand on two items to meet competition.

NOTE: The Total change in price of all items during the period of price filing did not average more than 20%.

COMPANY #13 - (INCOMPLETE LINE)

This company is also principally the electrical specialties business and lists less than 20 sockets.

1st Filing

December 26, 1933.....Effective December 12, 1933
Original filing. Quoting net price per hundred to all buyers.

2nd Filing

March 8, 1934.....Effective March 18, 1934.
Quoting to competing manufacturers net prices less up to 25%.

COMPANY #13

3rd Filing

May 2, 1934.....Effective May 12, 1934.
Downward revision in price approximating 10 to 20%.

4th Filing

June 8, 1934.....Effective June 18, 1934.
Increase in price on three items.

5th Filing

August 23, 1934.....Effective September 4, 1934.
Lower net price on one item which had been raised in the preceding filing. To meet competition.

6th Filing

November 5, 1934.....Effective November 26, 1934.
Prices revised downward on four items.

COMPANY #14 - (INCOMPLETE LINE)

1st Filing

December 13, 1933.....Effective December 12, 1933
Original filing. List prices on complete socket line, together with distributors discount of 50% and terms. Competing manufacturers quoted at distributors discount plus not more than 20%.

2nd Filing

January 25, 1934.....Effective January 25, 1934
Quoting Class J net prices bulk packing on about 50 items.

3rd Filing

February 20, 1934..... Effective March 2, 1934
Lower Class J net prices for one thousand lot bulk packing on three items of preceding filing.

4th Filing

March 14, 1934.....Effective March 14, 1934
Adding two new devides.

5th Filing

March 14, 1934.....Effective March 24, 1934
Downward revision of Class J net prices in one thousand lot bulk packing on about 15 items.

6th Filing

March 31, 1934.....Effective April 2, 1934
Quoting one item in 1000 and 5000 lots. No other changes.

7th Filing

March 31, 1934.....Effective April 2, 1934
Lower Class J net prices for one thousand lot bulk packing on several items to meet Company #4B.

8th Filing

April 27, 1934.....Effective April 28, 1934
Lower list prices on three items to meet Company #23.

9th Filing

April 30, 1934..... .....Effective April 30, 1934
Class J. net prices per hundred and per thousand lowered to meet Company #32.

COMPANY #14

10th Filing

May 17, 1934.....Effective May 27, 1934
Lower Class J net per thousand lot bulk packing on about 25 items to meet Company #32.

11th Filing

May 23, 1934.....Effective June 2, 1934
Lower net price per thousand on one item to meet Company #7.

12th Filing

July 13, 1934.....Effective July 23, 1934
List prices on five items.

13th Filing

July 24, 1934.....Effective August 3, 1934.
Lower Class J net prices for one thousand lot bulk packing on three items.

14th Filing

August 22, 1934.....Effective September 1, 1934
Class J net prices for one thousand lot bulk packing on about 30 items.

15th Filing

October 10, 1934.....Effective October 13, 1934.
Correcting price of one item on previous filing.

16th Filing

December 4, 1934.....Effective December 14, 1934.
Lower list price on one item to meet Company #7.

17th Filing

December 6, 1934.....Effective December 16, 1934.
Adding four new devices.

18th Filing

December 18, 1934.....Effective December 28, 1934.
Quoting Class J net prices for one thousand lot bulk packing on four items of preceding filing.

COMPANY #14

19th Filing

January 16, 1935.....Effective January 26, 1935.
Class J net prices for one thousand lot bulk packing on about 30 items. Some of these are additions to Class J list and some have been revised downward from last filing.

COMPANY #15 -(INCOMPLETE LINE)

This company has an incomplete line of assorted sockets.

1st Filing

January 2, 1934.....Effective January 3, 1934.
Original filing. Quoting net prices on about 35 sockets, together with discounts to distributors, syndicate stores and mail order houses.

2nd Filing

February 27, 1934.....Effective March 9, 1934.
This filing adds about 25 sockets to the line. Price changes have been negligible and in all cases have consisted of bringing a list price per hundred to the nearest even dollar, that is, changing $26.52 to $26.00 etc.

3rd Filing

April 19, 1934.....Effective April 19, 1934.
Quoting full line on net prices per hundred to all buyers. These net prices average about 10% below net prices calculated from previous list. Freight allowances have been brought in line with uniform practice of maximum allowances at 90¢ per hundred lbs. as in previous filing.

4th Filing

May 8, 1934.....Effective May 18, 1934.
General revision of prices of entire line upward and downward.

5th Filing

July 12, 1934.....Effective July 23, 1934.
Net prices lowered about 10% on three or four items.

6th Filing

August 18, 1934.....Effective August 28, 1934.
Net prices increased about 10% on one item.

COMPANY #16 - (COMPLETE LINE)

This company makes a complete line of Wiring Devices and Sockets and is one of the large units in the industry.

1st Filing

December 11, 1933.....Effective December 12, 1934.
Original filing. Quoting list prices and discounts to distributors and to wholesale accounts.* Class J prices are quoted net and are subject to same terms as distributors.

2nd Filing

February 10, 1934.....Effective February 20, 1934.
Complete refiling of all items. Many items revised slightly, mostly downward. It is noted that most of the changes made in price bring the list price to an even dollar or half dollar.

3rd Filing

March 9, 1934.....Effective March 15, 1934.
Lower list prices on about 15 items. Some items are marked "to meet Company #7 Sheet of 3/2/34", others are marked "to meet Company #4A Discount Sheet 1/33/34."

4th Filing

March 17, 1934.....Effective March 27, 1934.
Filing Class J net prices for one thousand lot bulk packing on 14 items.

5th Filing

March 24, 1934.....Effective March 29, 1934.
Adding seven items to Class J net price list to meet Co. #7.

6th Filing

March 29, 1934.....Effective April 2, 1934.
List price changes on sixty items to meet Company #23 and Company #18. Some of these appear to be new items. Many have been checked back against previous filing, showing a decrease, averaging approximately 30%.

7th Filing

March 30, 1934.....Effective April 2, 1934.
Lower list price on one item.

8th Filing

April 7, 1934.....Effective April 17, 1934.
List price change on one item.

COMPANY #16

9th Filing

April 11, 1934..... .....Effective April 21, 1934.
Class J net prices for one thousand lot bulk packing on 23 pieces. Most of these net prices average 20 to 30% below previous Class J prices.

10th Filing

April 27, 1934.....Effective April 28, 1934.
Lower list prices on four items to meet Company #22.

11th Filing

May 11, 1934.....Effective May 21, 1934.
Four items in preceding filing are quoted on Class J sheet on net per hundred and net per thousand to meet competition of Co. #14.
Note this date.

12th Filing

August 10, 1934.....Effective August 13, 1934.
Lower list prices on eight items to meet competition of Company #4B.

13th Filing

August 11, 1934.....Effective August 31, 1934.
Wholesale discount sheet and terms. Quoting discounts by packaging instead of list value as in original filing.

14th Filing

August 13, 1934.....Effective August 28, 1934.
Class J net prices for one thousand lot bulk packing on 11 items. These are about 5% below previous filings.

15th Filing

September 22, 1934..... ....Effective October 1, 1934.
Complete list price filing. Apparently this brings up-to-date the complete price filing, as no price changes are noted.

16th Filing

October 18, 1934.....Effective October 18, 1934.
Prices on four items, two of which are revised upward due to change in design.

COMPANY #16

17th Filing

November 24, 1934.....Effective November 28, 1934.
List price changes. Returned by Jockers for addition of terms, etc.

18th Filing

December 1, 1934.....Effective December 11, 1934.
Refiling of above. One item revised upward, four items downward. To meet competition.

19th Filing

December 21, 1934.....Effective December 31, 1934.
Class J net prices for one thousand lot bulk packing on about 50 items. This adds about 10 items to Class J list and apparently consolidates all preceding quotations to Class J customers on one sheet with no price changing.

20th Filing

February 4, 1935.....Effective February 4, 1935.
Adding four new items on list prices and also on Class J net price list.

	Distrubutors		Wholesale		
	Standard Packages	- 50%	Up to $15.00	-	2 %
(*)	Carton	- 40%	$15 to $60.00	-	30%
	Less Carton	- 30%	Over $60.00	-	40%

COMPANY #17 - (INCOMPLETE LINE)

1st Filing

December 22, 1933.....Effective December 12, 1933.
Quoting list prices and distributors discounts on an incomplete but varied line of Brass Shell, Bakelite and Porcelain sockets.

2nd Filing

December 29, 1933.....Effective January 8, 1934.
Reserving the right to sell to competing manufacturers at quoted prices.

3rd Filing

April 9, 1934.....Effective April 19, 1934.
Changing complete line to net prices for distributors only. Net prices are from 5 to 10% lower than previous list prices with best discounts applied.

COMPANY #17 (INCOMPLETE LINE)

4th Filing

October 29, 1934.....Effective November 18, 1934.
New net price sheet for distributors only, increasing prices on about 4 items, decreasing prices on two items. These are only slight revisions.

5th Filing

November 24, 1934.....Effective December 4, 1934.
Distributors net price sheet increasing price of two items about 5%.

Distributors Discount

Standard Packages	- 50 and 5%
Carton	- 45%
Less Carton	- 35%

COMPANY #18 - (COMPLETE LINE)

January 15, 1934
First filing received was destroyed, evidently by request of Company #18. Jockers wrote for new sheet on January 16, 1934.

1st Filing

January 25, 1934.....Effective February 4, 1934.
Original filing. List prices, together with distributors discount, terms and delivery makes a very complete line of sockets of all types.

2nd Filing

March 1, 1934.....Effective March 11, 1934.
List prices on five new items.

3rd Filing

March 22, 1934.....Effective April 2, 1934.
Net prices quoted to distributors on complete line. These prices approximate 20-30% below previous list prices with best discounts supplied.
Note: This apparently was the beginning of the disturbances which centered on April 2 in this industry.

4th Filing

April 18, 1934.....Effective April 28, 1934.
Lower net prices on four items.

COMPANY #18 - (COMPLETE LINE)

5th Filing

May 7, 1934.....Effective May 7, 1934.
Net price on new item.

6th Filing

May 7, 1934.....Effective May 17, 1934.
Lower net on two items.

7th Filing

May 14, 1934.....Effective May 24, 1934.
Lower net price on one item. Lowered 20%.

8th Filing

May 14, 1934.....Effective May 24, 1934.
Lower net price on two items to meet Company #32. Lowered 20%.

9th Filing

May 14, 1934.....Effective May 24, 1934.
Lower net price per hundred on one item to meet Company #12.

10th Filing

May 21, 1934.....Effective May 21, 1934.
Lower net on one item to meet Company #32. Lowered 10%.

11th Filing

May 21, 1934.....Effective May 31, 1934.
Cadmium Finish offer same price as Brush Brass.

12th Filing

June 6, 1934.....Effective June 8, 1934.
Lower net price on four items to meet Company #8 price of June 8, 1934, Company #2 price of June 8, 1934, and Company #3 price of June 7, 1934.

13th Filing

June 12, 1934.....Effective June 12, 1934.
Lower net prices on seven items to meet Company #32 price of June 12, 1934. Lowered about 10%.

14th Filing

July 16, 1934.....Effective July 26, 1934.
Lower net price on one item.

COMPANY #18 - (COMPLETE LINE)

15th Filing

January 3, 1935.....Effective January 14, 1935.
Lower net price on one item, two different finishes.

16th Filing

February 14, 1935.....Effective February 25, 1935.
Slightly lower net prices per hundred quoted on about 40 items.

17th Filing

February 28, 1935.....Effective March 11, 1935.
Distributors net price superseding and cancelling all previous quotations and evidently listing complete line. Several items checked are about 60% of the net price of the previous filing. Prices generally appear to be about 60% of original filing.

Distributors Discount
Standard Packages - 50-5%
Carton - 45%

COMPANY #19 - (INCOMPLETE LINE)

This company is principally in the electrical specialties business and their principal products are Portable Lamp Guards of various types. Total of about 15 sockets of various types are listed.

1st Filing

December 14, 1933.....Effective December 12, 1933.
Original filing. Wholesalers net prices and terms on about 15 sockets. Freight allowed only up to $1.30 per hundred lbs.

2nd Filing

October 19, 1934.....Effective October 29, 1934.
Terms of payment changed to 2% 10th proximo, net 60 days. No change in prices.

COMPANY #20 - (INCOMPLETE LINE)

1st Filing

December 12, 1933.....Effective December 12, 1933.
Original filing. Quoting list prices on about 19 sockets, together with discounts to National syndicate stores and to distributors, and also terms and delivery for each.

COMPANY #20 - (INCOMPLETE LINE)

2nd Filing

January 16, 1934.....Effective February 2, 1934.
Correcting list price on one item.

3rd Filing

March 16, 1934.....Effective March 17, 1934.
Net price per hundred on three items to meet Company #18.

4th Filing

March 30, 1934.....Effective April 2, 1934.
Net prices for distributors was filed on complete line somewhat lower than original list with best discount applied. To meet Company #18.

5th Filing

May 10, 1934.....Effective May 20, 1934.
Prices formerly filed for distributors will also apply to national syndicate stores to meet competitive filing.

6th Filing

June 5, 1934.....Effective June 15, 1934.
Revising terms of payment to 2% 10th proximo net 60 days. Delivery to New York, Chicago and San Francisco, regardless of weight or value now extended to all buyers--although formerly these only apply to syndicate stores. Freight allowed also on shipments of over $60.00 total net value.

7th Filing

October 3, 1934.....Effective October 8, 1934.
Revised terms of delivery. Freight allowed in U. S. on shipments W.O.G.
(a) 100 lbs. or over $60.00 net.
(b) 50 lbs. or over $30.00 net for syndicate stores.

Also net	

COMPANY #22 - (COMPLETE LINE)

This company makes a complete line of wiring devices and sockets.

December 12, 1933.
Original Wiring Device filing was refiled for sockets.

December 15, 1933.
Filing of this date destroyed by Jockers.

1st Filing

January 8, 1934.....Effective January 18, 1934.
This is the first complete filing. List prices, together with distributors and wholesale discounts, are given. Class J and Portable Lamp and Fixture Manufacturers are quoted "regular list prices, discounts and terms." Net prices per thousand are quoted to the three above customer classifications. Terms and delivery follow uniform practice.

2nd Filing

January 19, 1934.....Effective February 26, 1934.
Prices revised downward on 25 items.

3rd Filing

January 29, 1934.
Filing on Wiring Device assembly.

4th Filing

February 16, 1934.....Effective February 26, 1934.
Lower net prices on Class J prices per thousand.

5th Filing

February 21, 1934.....Effective February 22, 1934.
Lower price on one socket.

COMPANY #22 - (COMPLETE LINE)

6th Filing

March 16, 1934.....Effective March 26, 1934.
Lower list prices on 10 items.

7th Filing

March 21, 1934.....Effective March 31, 1934.
Adding few items to Class J net price list.

8th Filing

March 21, 1934.....Effective March 31, 1934.
Lower list prices on two items.

9th Filing

March 21, 1934.....Effective April 6, 1934.
Lower list prices on three items to meet Company #7.

10th Filing

April 2, 1934.....Effective April 2, 1934.
Lower Class J net prices on about 12 items. Prices dropped about 20%, to meet Company #18.

11th Filing

April 2, 1934.....Effective April 2, 1934.
Lower list prices on about 45 items.

12th Filing

April 2, 1934.....Effective April 12, 1934.
Special prices for assemblies and extras.

13th Filing

April 5, 1934.....Effective April 15, 1934.
Lower list prices on about 40 items.

14th Filing

April 10, 1934.....Effective April 20, 1934.
Changes for special finishes.

15th Filing

April 10, 1934.....Effective April 20, 1934.
Lower Class J net on one item.

COMPANY #22 - (COMPLETE LINE)

16th Filing

February 19, 1935 .....Effective February 25, 1935.
Extending prices of preceding filing to all buyers.

COMPANY #24 - (INCOMPLETE LINE)

This company handles only five sockets of various types.

1st Filing

December 14, 1933 .....Effective December 12, 1933.
Original filing. Quoting net prices with 5% to jobbers and chain stores, quotations made to manufacturers. 3% discount in place of freight allowances.

2nd Filing

October 11, 1934 .....Effective October 22, 1934.
Lower net prices on complete line. One item added. No change in terms, delivery, etc.

COMPANY #25 - (COMPLETE LINE)

This company manufactures a fairly complete line of sockets.

COMPANY #25 (COMPLETE LINE)

1st Filing

December 9, 1933 .....Effective December 12, 1933.
December 19, 1933 .....Effective December 12, 1933.
December 27, 1933 .....Effective December 12, 1933.

Original filing. Quoting list prices and distributors discounts. Competing manufacturers quoted at distributors discounts plus 20%.

Note: The original filing was supplemented by three changes filed on December 9, 1933, December 19, 1933 and December 27, 1933. All of these three were to be effective by December 12, 1933.

2nd Filing

February 5, 1934 .....Effective February 15, 1934.

Effective date of filing quoting terms and discounts to national syndicate stores. This was destroyed at company's request.

3rd Filing

February 7, 1934 .....Effective February 17, 1934.

Sheets replacing filing above.

4th Filing

April 2, 1934 ....Effective April 2, 1934.

All items quoted on net basis per hundred to distributors. This filing was returned to Company #25 due to typographical errors and inclusion of three items as "discontinued" without the permission of Supervisory Agency. It was refiled on April 20, 1934, and has the effective date of April 30, 1934, but for practical purposes was probably in effect after April 2, 1934.

5th Filing

April 9, 1934 .....Effective April 9, 1934.

Three new items.

6th Filing

April 20, 1934 .....Effective April 30, 1934.

Distributors terms and net prices on most of line. Some items revised downward.

7th Filing

May 31, 1934 .....Effective June 11, 1934.

Lower net prices on three items.

8th Filing

June 12, 1934 .....Effective June 12, 1934.

Net prices revised downward on 25 items to meet Company #32.

9th Filing

June 20, 1934 .....Effective June 30, 1934.

Revised delivery terms. Freight allowed on 100 lbs. or $60.00 net value or more, regardless of weight or value on shipments to syndicate stores to meet Company #9 and Company #32.

COMPANY #25

10th Filing

July 11, 1934 .....Effective July 21, 1934.
Net prices revised downward on 16 items. Lowered slightly.

11th Filing

July 13, 1934 .....Effective July 23, 1934.
Change in delivery. Syndicate stores and freight allowed on 50 lbs. or over. Freight allowed regardless of weight or value to Metropolitan New York, Chicago, San Francisco and Los Angeles. To meet Company #32 and Company #23.

12th Filing

July 19, 1934 .....Effective July 30, 1934.
Quoting allowances deductable from net price for elimination of one item.
Note: This filing occasioned inquiry by several manufacturers as to what was meant by filing.

13th Filing

October 19, 1934 .....Effective October 29, 1934.
Change in delivery. Freight allowed to syndicate stores on 50 lbs. or $30.00 net value or over and regardless of weight or value to syndicate stores of metropolitan New York, Newark, Hoboken, Jersey City, Philadelphia, Chicago and San Francisco.

14th Filing

February 21, 1935 .....Effective March 4, 1935.
Prices revised downward on practically all brass shell sockets. Reduction averages from 20 to 30%.
Distributors Discount
Standard Packages - 50-5
Cartons - 45%

COMPANY #26 - (INCOMPLETE LINE)

This company lists only two sockets in original filing.

1st Filing

January 8, 1934 .....Effective January 18, 1934.
Original filing. Quoting net prices. Delivery quoted f.o.b. New York and Metropolitan areas.

2nd Filing

April 4, 1934 .....Effective April 14, 1934.
Lower prices on both items. Freight now allowed to any point on 100 lbs. or more. Lowered about 2 %.

COMPANY #26

3rd Filing

May 23, 1934 .....Effective June 2, 1934.
Lower net price on one item. This is marked to be effective immediately, but was filed on May 23, 1934. Lowered 10%.

4th Filing

July 20, 1934 .....Effective July 30, 1934.
Quoting net prices on five sockets.

5th Filing

July 20, 1934 .....Effective July 3 , 1934.
Correction of preceding filing, raising prices slightly on two items and decreasing on one.

6th Filing

November 22, 1934 .....Effective December 3, 1934.
Prices revised downward to meet previously filed prices of competitors.

7th Filing

January 7, 1935 .....Effective January 17, 1935.
Prices revised downward on three items to meet Company #32. Lowered about 5%.

February 11, 1935 .....Effective February 18, 1935.
Price revised downward on one item.

COMPANY #27 - (INCOMPLETE LINE)

This company has a line of Molded Weatherproof sockets but lists no brass shell or other type sockets.

1st Filing

December 15, 1933 .....Effective December 12, 1933.
Original filing. Quoting list prices and distributors discounts on various molded sockets. Usual terms of payment and delivery.

2nd Filing

February 2, 1934 .....Effective February 12, 1934.
Price lowered on one item.

3rd Filing

March 6, 1934 .....Effective March 16, 1934.
List price lowered on two items to meet competition. Lowered about 25%.

4th Filing

March 24, 1934 .....Effective April 3, 1934.
List price on two Weatherproof sockets.

5th Filing

April 11, 1934 .....Effective April 21, 1934.
Lower list price on one item to meet competition.

COMPANY #27 (INCOMPLETE LINE)

6th Filing

July 27, 1934.....Effective August 6, 1934.
Price increased on two items. Raised about 10%.

7th Filing

January 9, 1935.....Effective November 19, 1934.
Changes in delivery. Freight allowed on 100 lbs. or $60.00 or more, except in New York and Chicago Metropolitan districts, which have free delivery to various doors.

8th Filing

January 18, 1935.....Effective January 28, 1935.
Prices filed on one new item.

COMPANY #29 - (COMPLETE LINE)

This company makes a complete line of sockets.

1st Filing

December 13, 1933.....Effective December 12, 1933.
Original filing. Quoting list prices, together with distributors discounts, terms and delivery. Competing manufacturers quoted distributors discount and not to exceed 20% additional.

2nd Filing

March 12, 1934.....Effective March 15, 1934.
Lower list prices on six items. Lowered about 10%.

3rd Filing

March 30, 1934.....Effective April 2, 1934.
Prices revised downward on 60 items to meet Company #18. Lowered about 20%.

4th Filing

March 4, 1934.....Effective April 6, 1934.
List prices revised downward on 4 items. To meet Company #7.

5th Filing

April 5, 1934.....Effective April 15, 1934.
Prices revised downward on two items.

6th Filing

August 6, 1934.....Effective August 16, 1934.
List prices on three items.

COMPANY #29 (COMPLETE LINE)

7th Filing

September 7, 1934.....Effective September 17, 1934.
List prices on six items.

8th Filing

November 9, 1934.....Effective November 19, 1934.
Upward revision of four items, addition of four new items.

Distributors Discount

Standard Packages	-	50%
Carton	-	40%
Less Carton	-	30%

COMPANY #30

Made only original filing. This company manufactures a line of sockets which are not competitive with others in this group since they are applied only to the type of conduit manufactured by this company. Probably this is the reason for not having made any revisions in price. Net prices to distributors in two groups, Eastern and Western with slightly higher prices in far West. Net prices are also quoted "to the trade" at about 30% above distributors.

COMPANY #31

Made only original filing. The sockets made by this company are equipped with a variable rheostat and are not comparable with sockets made by other companies in the group. It is included partly to show the distinctive discount set-up.

Standard Packages	-	50%
Cartons	-	45%
Less Carton	-	40%

COMPANY #32 - (COMPLETE LINE)

1st Filing

December 12, 1933.....Effective December 12, 1933.

$579.00	$195.00

Terms of Payment

Retail sales 5% 10 days or 2% 30 days.
Quantity buyers, not to exceed 2% 30 days.
Distributors and Dealers, not to exceed 2% 10th prox.

Delivery Terms II

Deferred Payment

10% cash - balance in 10 equal monthly payments. Finance charges to be added for time over 10 months up to 24 months. No installment less than $5.00.

"Multiple Sales" Contracts

The following special arrangements as to terms may be made when --

a. The original contract includes two or more Company #23's machines.

b. Original purchaser of one or more Company #23's machines desires to add additional Company #23's equipment to original contract.

Under Section (a) (That is, two or more units on original contract), terms may be extended to 10% cash with order, balance up to 24 monthly payments, the Company waiving finance charges.

Under Section (b) (That is, where additional equipment is added to original contract):

1. A new contract must be written.

2. In the new contract, in additional to any deliquent payments on the old contract, there must be 10% of the list price of the new equipment added, and the balance may be divided in not to exceed 24 monthly payments, provided, however, that these payments shall not be less than the amount of the payments provided in the original contract thus being cancelled.

COMPANY #23 (Cont'd.)

Discounts

Distributors, Dealers, Chains and other quantity buyers and Governmental Agencies other than Federal, 25%.

Last Filing

Received December 26, 1934.....Effective January 5, 1935.

PRICES	
High	Low
$579.00	$195.00

Terms of Payment

Same as first filing.

Delivery Terms

Same as first filing.

Deferred Payments

Same as first filing.

Discounts

Governmental Agencies other than Federal, 15%.
Federal Government, not less than whole cost.
Chains, 25%.
Distributors, 25%.

APPENDIX A, PART 12

LAMINATED PHENOLIC PRODUCTS

SECTION A

Chronological Record of Price Filings by Companies.

SECTION B

Pricing Instruction for Specialties and Government Quotations

SECTION C

Incomplete Samples of Price Filings

Introduction to Appendix A, Part 5.

LAMINATED PHENOLIC PRODUCTS

I.A. Price Call (See Supplement 1, herein for copy)

The price call was issued September 18, 1933, and became effective on September 28, 1933. The call was based on the first paragraph of Article X of the code.

1. Price lists or price lists and discount sheets showing current prices and fixed terms of sale, payment, delivery and any other conditions which effect the sales price.

   The following exceptions are made:

   (a) Prices for refrigerator breaker strip material (covered by another price call)

   (b) Prices for materials intended primarily for decorative applications.

   (c) Courtesy discounts to manufacturers or those promoting the manufacture of the products.

B. The Product

The products to come within the scope of the call were defined as:

1. Laminated Phenolic Products made of paper fabric or asbestos base material, bonded with synthetic resin bond and made in form of plate, tube, rod, angles, channels, washers and blanks.

2. Laminated Phenolic Specialties sawed, punched, cut or fabricated from primal forms as described above.

The above materials are commonly referred to as bakelite although this is erroneous since that is the trade name of the synthetic phenol compounds of the Bakelite Corporation. This company did not file prices under this price call. The products of each company that did file are known by the trade names of the individual companies such as Micarta, Textolite, Lamicoid, Formica, Dilecto, etc. The products are substantially the same in composition and are made in certain comparable grades, sizes and forms. These grades, sizes and forms had been set up by Nema as suggested standards prior to the code period and had been subscribed to by all of the large manufacturers. During the period of price filing this standardization simplified the filings to a great extent.

The products of the various companies were also quite uniform in quality. As an example the XP grade material of one company might have slightly better punching characteristics than the XP grade of another company whose materials, in turn, might have a slight advantage in dielectric characteristics. However, neither of the two differences would

be great enough to make the two materials non-competitive. One result of this almost complete uniformity of product is that competition tends to center on price alone.

II.A. The Industry

At the end of the price filing period about 55 companies were filing prices.

Of these 55 concerns only 12 are listed by Nema as being manufacturers of the material in primal form. These companies are identified as numbers 5, 8, 10, 11, 21, 23, 24, 25, 30, 31, 32, 33. The remaining companies are fabricators who purchase primal material, from manufacturers and supply the trade with punched, sawed or otherwise machined blanks and finished parts, or who sell the stock sizes of primal material. The primal manufacturers also offered the same fabrication service as the fabricators.

Company #34 claimed to be a primal manufacturer and filed prices as such although it was not recognized by Nema as a manufacturer. The source of the company's primal material was not known.

The price filings of all companies in the industry were practically identical, the only exception being one concern whose filings were different in every detail. This company later changed its quotations to the uniform system in use in the industry.

The fabricators in practically every case would file the price sheets of the company whose product they fabricated. The only change that would be made would be to stamp the name of the fabricator on the manufacturer's filing.

III. Description of Price Filings

The Price Filings List for:

Primal Material

Sheets

1. A list price per pound for each thickness of material.

2. 3 discounts for each grade based on quantities up to 50 pounds, 50 to 299 lbs. and 300 lbs. and over.

Note: List prices are quoted on 7 thicknesses from 1/64" to 3/32". Standard sheet size about 38" x 38". All thicknesses above 3/32" take that price per pound. Intermediate thickness is at price of next thickness quoted.

Tubing

1. List prices per foot are quoted for various inside diameters and wall thicknesses. These add up to about 1300 list prices.

2. 4 discounts each are quoted on 4 different qualities of material. The 4 discounts are based on quantities up to 50 ft., 50 to 199 ft., 200 to 499 ft., and over 500 ft. (Considering all combinations of quantity, quality and size there are actually over 25,000 prices quoted on tubing)

Note: Tubing is made from 3/16" to 8" I.D. and 1/32" to 1½" wall thickness and in lengths of not over 48".

Rods

1. List prices per foot are quoted on 27 sizes of rod from 1/4" to 4" diameter.

2. 4 discounts each are quoted on 4 different qualities of material. The quantity groups are the same as those for tubing.

Note: Only 27 sizes from 1/4" to 4" diameter are quoted but intermediate diameters are furnished at the price of the next diameter. Maximum length not over 48 inches.

Fabricated Forms

Strips and Blacks

1. The list prices and discounts for sheet material apply.

2. Various tables and formulae are used and applied to calculate the fabrication costs.

Washers and Discs

1. List prices are quoted on washers in steps of 1/8" from 1/4" to 14" diameter and in steps of 1/16" from 1/32" to 1" by most companies. Some companies quote thickness up to 3" by 1/16" steps. List prices are per 100 under 1" thick and per each if the material is over that thickness.

2. (a) Discounts which are usually in 6 grade groups, each of which are in 4 quantity groups of: less than 100, 100 to 199, 1000 to 9,999, and 10,000 and over. These discounts cover Grades C & L up to 1/4" thick and all other grades of all thicknesses.

   (b) Another discount group covers Grade C & L washers 1/4" thick and over in 4 quantity groups of: up to 10, 10 to 99, 100 to 999, and 1000 and over. This group of material is commonly referred to as gear blanks.

3. Various tables of net extras for turning, beveling, drilling and counterboring, etc., are quoted. The size of the washer is used to select the charge for certain work.

Note: If quotations are made on washers up to 3" in thickness it requires quotation of about 5200 list prices. Combinations of quantity, quality and size will bring this to a total of nearly 125,000 different net prices. This is without consideration of any extras for special machining.

IV. Changes during Price Filing

Changes in price in this industry during the period of price filing compared with other industry groups were not very frequent nor were they particularly extensive. The groups of products are listed below in the order importance of price changes.

Washers (excluding gear blanks)

Price changes on washers (a fabricated item) were more frequent than any other product in this group although the average change in price was not as great as in the case of rods.

The decrease in price ranged from 1% to about 21% with the greatest change occuring in the smaller quantity groups and in the least expensive grades of material.

Tubes

Only one change was made in tubing prices. Discounts had ranged from 15 - 15% to 65 - 15% depending on quality and quantity. During price filing the additional 15% was discontinued by all companies. This amounted to a net price increase of from about 15% in the case of small quantities to about 6% in large quantity orders.

Sheets

Sheet material is divided into 3 groups which are:

1. X, XP grades, paper base material.
2. XX, XXX grades, more expensive paper base material.
3. C. & L grades; canvas and linen base material.

Changes were made increasing and decreasing prices, the final result being:

Grades X, XP reduced approximately 10 - 12%.
Grades XX, XXX increased approximately 2 - 8%
Grade C increased approximately 3 - 6%
Grade L increased approximately 5 - 8%

Gear Blanks

Washers in Grades C & L over 1/4" thick were increased in price from 3% to 6%.

Rods

There was no change in the price of rods.

Delivery

No changes were made in delivery terms. These terms were - "freight allowed East of Eastern boundaries of Montana, Idaho, Wyoming, Texas and goods shipped West of this line are prepaid freight and 5% is added to the invoice."

Terms of Payment

There were no changes in these terms. The only terms were - Net 30 days, no cash discount.

Other Changes

There were few outstanding changes which took place in the price structure of this group as follows:

Grade S Material

Vulcanized fibre manufacturers had started marketing a form of fibre which was coated on the outside with a phenolic varnish. This imparted to the fibre certain of the characteristics of a laminated phenolic-paper base material and at a considerable reduction in price.

To meet this condition the laminated phenolic group marketed a new material which they called Grade S and which was advertised to be inferior to the standard grades. The material was only made in sheet form in one color with the exception of 1 company which also offered tubing of Grade S material.

Actually the product was not specially manufactured but the finish, dimensions, etc., were slightly inferior to the usual grades and the material was not guaranteed.

It was offered in sheet form, specialties and washers at a reduction of 12% to 18% from the previous cheapest material.

Special Tubing Discount

Company #31 offered a discount of an additional 15% on Grade X and XX tubing up to 2" inside diameter in quantities of 2500' and over.

This discount of 65 -15% was met by company after company until it became universal in the group.

Quantity Discounts on Washers

Shortly after original filings were made various companies changed the discounts on washers. In the original filings lots of 10,000 received the maximum discount but new group extending up to about 25,000 lots were added. This higher quantity would receive a discount of 5 - 8% more than the 10,000 lots previously quoted.

A great many filings were made on these discounts and after many revisions up and down the final level reached was a quotation on lots of 10,000 and over which was from 4 - 8% higher than in the original filing.

Fabricators and Commercial Gear Cutters

The discounts to fabricators were increased by all companies. Fabricators finally had a discount averaging 16 2/3%.

Commercial gear cutters were not charged any minimum charges and maximum discounts applied.

Pump Valve Distributors

Pump valve distributors who purchased completely machined valves for resale were quoted increasing discounts. These finally ranged from 10 - 15% in addition to usual quantity discounts.

SUMMARY

The changes may be briefly summarized as follows:

Material Forms

1. Sheets - low grades reduced in price, others increased.
2. Washers - generally reduced in price, mostly in small quantities and low grades.
3. Gear blanks - increased in price.
4. Tubing - increased in price.
5. Specialties - decreased in price.
6. Rods - no change.

Special Customer Classification

1. Agents - discounts increased
2. Fabricators - discounts increased
3. Pump valve distributors - discounts increased
4. Commercial Gear Cutters - discounts increased
5. Paper Machinery Manufacturers - little change.

COMPANY #1

November 3, 1935.....Effective November 6, 1935.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #33 and as such files the price filings of Company #33.

January 4, 1934.....Effective January 14, 1934.

See Company #33, filing effective January 12, 1934.

December 11, 1934.....Effective December 10, 1934.

See Company #31, filing effective December 10, 1934.

COMPANY #5

September 22, 1933.....Effective September 28, 1933.

This company is one of the large units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

Certain slight changes are made in the methods of computation of prices of various specialties in the sheets attached to the filings. These changes, however, do not appear to affect the prices to any great extent and merely serve to clarify the methods of using the discount sheets.

December 4, 1933.....Effective December 14, 1933.

Quoting special quantity discounts on quantities of washers in groups from 25,000 lots to 250,000 lots. These discounts are in steps of one percent and the largest quantity takes a discount only 8% higher than 10,000 lots, which was the largest lot price previously quoted.

December 18, 1933.....Effective December 28, 1933.

This filing revises discounts on lots up to 10,000 on four grades of material. Only lots of 1,000 or are affected and the increase in the discount is not more than 4%.

January 17, 1934.....Effective January 17, 1934.

Correcting typographical error in orginial filing. Quantity discounts of tubing made from a new type of material.

April 9, 1934.....Effective April 19, 1934.

Price instructions for computing prices of doctor blades. Manufacturers of paper machinery receive maximum discounts regardless of quantity.

May 24, 1934.....Effective June 5, 1934.

Decreasing discounts on all quantities of Grade S tubing which was first quoted in filing effective March 10, 1934. As an example, the original quotations on shipments or shipments of less than 50 ft. was 55 - 15%. The present quotation is made at 50%.

May 24, 1934.....Effective June 5, 1934.

Quotations on all grades of tubing. All original quotations had carried an extra 15%; for example-45- 15%, 60 - 15% etc. All grades are now quoted on the original discount, without the extra 15%, such as 15% and 60 as in above. Some discounts are lowered while others are raised, the maximum change being not more than 7%.

COMPANY #5 (continued)

Discounts on washers are changed slightly on fabric base stock of less than 1/4 inch thickness. Grades X, XP, XX, and XXX are combined and higher discounts quoted on all quantites. The differential between the lowest quantity discount and the largest quantity, is decreased by about 10%.

On washers of 1/4 inch thickness, discounts on fabric base stock are decreased from 3 to 5% throughout quantity groups.

June 2, 1934.....Effective June 12, 1934.

Price instructions for government quotations. This is discussed in detail elsewhere for the entire industry and this filing is in accord with instructions made by other manufacturers.

August 6, 1934.....Effective August 13, 1934.

Quoting on quantities of tubing in Grades X and XX, inside diameters up to 2 inches, 2500 feet or over 65 - 15%. These prices filed to meet Company #31.

November 10, 1934.....Effective November 19, 1934

Quantity list prices and discounts on new grade of material "similar in quantity to Grade X". List price same as Grade X.

The discounts on this material are considerably higher than Grade X. They vary from 20% in the same quantities to 14% in the higher quantities. The discounts on washers average about 12% higher than for Grade X. All other conditions of sale remain the same.

These prices to meet Company #23.

February 21, 1935.....Effective February 23, 1935

Quoting 16-2/3% additional discount to "Fabricators" to meet Company #23.

April 1, 1935.....Effective April 8, 1935.

Revision of prices on Grade #100 first quoted on November 19. The discounts on sheets are decreased 5% on all quantities. Discounts on washers are decreased from 2 to 3% on all quantities.
Filed to meet Company #23.

COMPANY #6

February 14, 1934.....Effective February 13, 1934.

This company is listed as an Industrial Fabricator for the Laminated Phenolic Products of Company #33 and as such files the price filings of that company.
See company #33 filing effective February 13, 1934.

April 5, 1934.....Effective April 15, 1934.

See Company #33 filing effective March 29th.

June 14, 1934.....Effective June 25, 1934.

August 25, 1934.....Effective August 27, 1934.

See Company #33 filing effective August 27, 1934.

December 3, 1934.....Effective December 13, 1934.

See Company #33 filing effective Nov. 19, 1934.

January 14, 1934.....Effective January 24, 1934.

See Company #33 filing effective December 27, 1934.

April 12, 1934.....Effective April 22, 1934.

See Company #33 filing effective April 8, 1934.

April 30, 1934.....Effective April 30, 1934.

See Company #33 filing effective April 30, 1934.

COMPANY #7

This company is associated with Company #28 and informed the Code Authority that both companies are fabricators of Company #32 products and adhere to Company #32 prices. Notes on the Harden card refer to Company #32 for listings of price filings.

COMPANY #8

September 23, 1933.....Effective September 28, 1933.

This company is listed as an Industrial Fabricator for The Laminated Phenolic Products of Company #5, and as such files the price filings of that company.

November 29, 1933.....Effective December 9, 1933.

Discounts quoted on five quantity groups of washers above 10,000 quantities. The groups range from 25,000 to 250,000 and over. The discounts are in five increments of 2% each some grades and one percent each in other grades.

December 21, 1933.....Effective December 31, 1933.

Change in discounts, 10,000 lots of washers. Without making any change in discounts on less than 10,000 lots, the same discount is now quoted for 10,000 lots and over as had been quoted in the preceding filing for lots of 100,000 to 250,000.

May 31, 1934.....Effective June 11, 1934.

General revision of discounts on sheets, washers and tubing.
Sheets - Discounts lowered on all grades in all quantity groups on an average of about 7%.
Washers - Discounts on grades except C and L not less than 1/4 inch thick are generally lowered from 1% to as much as 17%.
Grade C washers in lots of less than 1,000 have the discounts increased about 10%.
Grade L washers in the same quantity groups have the discounts decreased from 9 to 17%.
Tubing- Discounts on tubing were formerly quoted as 20-15%, 30-15% etc. This filing drops the added 15% in all grades, in all quantities.

June 11, 1934.....Effective June 21, 1934.

Price instructions for government quotations. This is discussed in detail elsewhere for the entire industry and this filing is in accord with instructions made by other manufacturers.

Agust 9, 1934.....Effective August 13, 1934.

Quoting additional discounts on Grade X and XX tubing. Discount is now 65-15%. These prices to meet Company #31.

Company #8 (continued)

November 10, 1934.....Effective November 20,1934.

Filing list prices and discounts on new grade of stock designated as Grade S. This material is furnished in sheets, and as washers and specialties.

Discounts on this material range from 15 to 20% lower than the cheapest grade stock previously quoted. Discounts on washers average about 15% below discounts on X grade washers.

December 10,1934.....Effective December 10, 1934.

Explaining that discounts on filing effective August 13th do not apply on tubing with other than round section. Prices filed to meet Company #31.

February 20, 1935.....Effective February 25,1935.

Quoting discount to "Fabricators" on all grades and forms of Company #8.
Discount to be 16-2/3% in addition to all other quantity discounts These prices filed to meet Company #33.

April 1, 1935.....Effective April 10, 1935.

Lowering discounts on Grade S material, first quoted on November 20, 1934.
Sheet discounts are lowered 5% in all quantity groups and washer discounts are lowered 2% in all quantity groups.

Company #9

September 27, 1933.....Effective September 28, 1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #31 and as such files the price filings of Company #31.

June 2, 1934.....Effective June 5, 1934.

See Company #31 filing effective June 5th, 1934.

December 1, 1934.....Effective December 11, 1934.

See Company #31 filing effective November 19, 1934.

April 2, 1935.....Effective April 8, 1935.

COMPANY #10

September 18, 1933.....September 28, 1933.

This company is one of the large units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

October 4, 1933.....Effective October 14, 1933.

Quoting 15% courtesy discount beyond maximum published discounts to other manufacturers of Laminated Phenolic products.

Also quoting 16-2/3% discount beyond maximum published discounts on all grades and forms of Textolite to Company #11 (this company is a Fabricator).

November 18, 1933.....Effective November 28, 1933.

Filing large quantity discounts on washers of grades less than 1/4 inch thick. These discounts cover quantities in five groups from 25,000 to 250,000 pieces and the increments average one percent.

November 28, 1933.....Effective December 8, 1933.

Revision of preceding discounts, adding one percent to discount on Grades X, XX, XXX for lots of more than 250,000. The discounts on Grades C and L are increased 2% on these quantities.

December 22, 1933.....Effective December 26, 1933.

Instructions for arriving at price of plain cut blocks.

Different sizes, colors and grades may be aggregated and plain cut pieces may be aggregated with sheet specialties of determined quantity discounts. These prices are to meet Company #5.

December 28, 1933.....Effective January 8, 1934.

Correcting typographical error in quoting quantity discounts for "plain cut blocks" since these prices are determined from Cutting Schedule and therefore are not subject to such discounts.

June 5, 1934.....Effective June 5, 1934.

General revision of discounts on Textolite in sheets, washers and tubing.

COMPANY #10

June 5, 1934.....Effective June 5, 1934(continued)

Tubing: Discounts previously quoted on tubing were 45-15%, 30-15% etc.; the extra 15% is now discontinued.

Washers: Discounts are raised at an average of 10% in the smaller quantity groups and decreased about 2% in lots of 10,000 and over. The changes in between are graded.

June 12, 1934.....Effective June 12, 1934.

To meet Company #5.
Price instructions for Government quotations. This is discussed in detail elsewhere for the entire industry and this filing is in accord with instructions made by other manufacturers.

August 8, 1934.....Effective August 13, 1934.

Quoting quantity discounts on more than 2500 feet of Grade X or XX tubing. Discount is 65-15%.

October 27, 1934.....Effective November 6, 1934.

Quoting list prices and discounts on two new grades of material. It is noted in the following that this material is sub-standard and will be known as Texoid. The discounts on one grade range from 10 to 18% higher than the cheapest material formerly quoted. Washer discounts range from 10 to 15% above previously quoted cheapest material.

The other material quoted is on a net basis per pound that is not comparable with other materials. Therefore it is not quoted herein.

December 28, 1934.....Effective January 7, 1935.

Lowering discounts on all quantities and all grades of Textolite from 6 to 8%.

March 22, 1935.....Effective March 26, 1935.

Quoting list prices and discounts on Grade S Textolite between 1/32 inch and 1/8 inch in thickness. The quotations made are the same as those made for Grade X material in the filing effective January 7th.
Note: This price filing carries the penciled note "short term effective date given by E.N. Ott filing to clear up Grade S filed by other companies, not by Company #10."

April 12, 1935.....Effective April 22, 1935.

Changing discounts on Grade S material quoted in preceding filing.
The discounts on sheet stock are lowered 5%.
Washer discounts and Grade S Textolite range from 10 to 13% lower than washer discounts on Grade X and similar materials.

COMPANY #11

October 3, 1933.....Effective September 28, 1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic products of Company #10, and as such files the price filings of that company.

December 13, 1933.....Effective December 23, 1933.

See Company #10 filing effective January 8, 1934.

December 28, 1933.....

Part of this filing covers discounts on quantities of washers up to 10,000 pieces. This filing is effective on the same date as the filing of Company #10 which changes the discounts on washers. However, these discounts do not agree exactly with the discounts on Company #10, the variations not exceeding 2%.
Discounts are quoted on quantities of washers above 100,000 which check with the filings on Company #10.
These are to be effective January 5, 1934.
Note: The filing on quantities of washers less than 10,000 are marked to be effective December 26 to meet the filing of Company #5.

January 8, 1934.....Effective January 18, 1934.

This filing withdraws the discount quoted on quantities of washers above 100,000 which are mentioned in the preceding filing.

April 3, 1934.....Effective April 13, 1934.

Quoting "to recognized distributors of Laminated Phenolic Products of Company #10, pump valves, discs and washers, for resale purposes only", the maximum quantity discounts less 10%.

April 24, 1934.....Effective May 4, 1934.

Quoting "to recognized distributors of pump valves who purchase solely for resale to users of pump valves" the maximum discounts less 15%.

June 6, 1934.....Effective June 5, 1934.

See Company #10 filing effective June 5, 1934.

August 8, 1934.....Effective August 13, 1934.

See Company #10 filing effective August 18, 1934.

November 21, 1934.....Effective November 19, 1934.

This filing quotes list prices and discounts on a new grade of material. This grade of material is not quoted by Company #10 until March 26, 1935 at which time their filing duplicates this filing.

April 20, 1935.....Effective April 30, 1935.

See filing of Company #10 effective April 22, 1935.

COMPANY #12

November 4, 1933.....Effective November 14, 1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #33, and as such, files the price filings of that company.

January 4, 1934.....Effective January 14, 1934.

See Company #33 filing effective January 14, 1934.

March 23, 1934.....Effective April 2, 1934.

See Company #33 filing effective March 29, 1934.

June 6, 1934.....Effective June 5, 1934.

See Company #33 filing effective March 29, 1934.
Note: Marked to meet Company #5.

August 16, 1934.....Effective August 27, 1934.

See Company #33 filing effective August 27, 1934.
Note: Marked to meet competitive prices of Company #33 effective August 27, 1934.

November 23, 1934.....Effective December 3, 1934.

See Company #33 filing effective November 19, 1934.

December 31, 1934.....Effective December 31, 1934.

See Company #33 filing effective December 27, 1934.

April 8, 1935.....Effective April 8, 1935.

See Company #33 filing effective April 8, 1935.

April 29, 1935.....Effective April 30, 1935.

See Company #33 effective April 30, 1935.

COMPANY #13

January 19, 1933.....Effective January 19, 1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #21 and as such, files the price filings of that company.

For original filings see Company #21 filings up to and including December 27, 1933.

June 29, 1934.....Effective July 9, 1934.

This filing, with one exception of one item, duplicates the filing of Company #21. On this one item, the discounts quoted on special colors of paper base stock are 10% lower than those of Company #21.

July 3, 1934.....Effective July 13, 1934.

Price instructions for Government quotations. This is discussed in detail elsewhere for the entire industry and this filing is in accord with instructions made by other manufacturers.

See Company #21 filing effective June 30, 1934.

July 3, 1934.....Effective July 13, 1934.

See Company #21 filing effective July 13, 1934.

December 10, 1934.....Effective December 10, 1934.

See Company #21 filing effective December 10, 1934.

February 19, 1935.....Effective March 1, 1935.

See Company #21 filing effective February 26, 1935.

COMPANY #14

November 3, 1933 .....Effective November 2, 1933.

This company is a manufacturer who quotes net prices only on certain sizes of phenolic tubing. These prices are roughly comparable, at this date, to those of other companies for quantities of over 500 feet. However, this filing does not specify any minimum size order.

The material is not designated as a NEMA standard grade and may not be competitive with other manufacturers.

COMPANY #15

October 2, 1933 .....Effective September 28,1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Companies #23 and #30, and as such, files the price filings of these companies in most cases.

December 20, 1934.....Effective December 30,1934.

See Company #30 filing effective December 14, 1934.

January 2, 1934 .....Effective January 12, 1934.

June 4, 1934 .....Effective June 14, 1934.

See Company #30 filing effective June 14, 1934.

August 13, 1934 .....Effective August 13,1934.

See Company #30 filing effective August 13, 1934.

November 24, 1934 .....Effective December 4,1934.

See Company #30 filing effective November 19, 1934.

April 5, 1934 .....Effective April 8, 1934.

See Company #30 filing effective April 8, 1934.

Note: The original filing of this company quoted the filing of Company #23 but all subsequent filings were those of Company #30.

COMPANY #16

August 10, 1934 ..... Effective August 20, 1934.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #23 and as such, files the price filings of that company.

August 27, 1934 ..... Effective August 27, 1934.

Adding delivery terms, FOB Cleveland

COMPANY #17

May 20, 1934 ..... Effective May 21, 1934.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #33 and as such, files the price filings of that company.

See Company #33 filing effective January 12, 1934 and March 29, 1934.

November 26, 1934 .....December 6, 1934.

See Company #33 filing effective Nov. 27, 1934.

December 14, 1934 .....Effective December 24, 1934.

See Company #33 filing effective August 27, 1934.

COMPANY #18

November 8, 1933 .....Effective November 18, 1933.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #33 and as such, files the price filings of that company.

For original filing see Company #33 filing effective on November 13, 1933.
Note: Company #1 filed November 6, 1933; Company #12 filed November 4, 1933 and all were sent out on November 10, 1933. All of the above are fabricators for Company #33.

January 8, 1934 .....Effective January 18, 1934.

See Company #33 filing effective Jan. 12, 1934.

March 31, 1934 .....Effective April 10, 1934.

March 4, 1935 .....Effective March 14, 1935.

See Company #21 filing effective February 26, 1935.

COMPANY #20

July 9, 1934 .....Effective July 19, 1934.

This company is listed as an Industrial Fabricator for Laminated Phenolic Products of Company #21 and as such, files the price filings of that company.

For original filing see Company #21 filing effective June 30, 1934.

July 20, 1934 .....Effective July 30, 1934.

This filing bears the name of Company #20 and incorporates all of the discounts on all forms of the product of Company #21. It does not duplicate any one of Company #21 filings.

August 8, 1934. .....Effective August 13, 1934.

See Company #21 filing effective August 13, 1934.

November 7, 1934 .....Effective November 12, 1934.

See Company #21 filing effective November 12, 1934.

November 23, 1934.....Effective December 3, 1934.

See Company #21 filing effective November 19, 1934.

December 10, 1934.....December 10, 1934.

See Company #21 filing effective December 16, 1934.

February 21, 1935 .....Effective March 4, 1935.

See Company #21 filing effective February 26, 1935.

COMPANY #21

September 20, 1933 .... Effective September 28, 1933.

This company is one of the large units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

October 4, 1933 .....Effective October 14, 1933.

Instructions for pricing and list prices on decorative finishes which are not quoted in original filing. These list prices and discounts are in accord with those of other companies.

December 1, 1933 .....Effective December 11, 1933.

Quoting discounts to Company #13 as an exclusive fabricator. Discount is usual quantity discount plus 16-2/3%. Discounts to exclusive distributor, Company A, of 15% for shipment to stock and 10% for shipment to customer.

December 4. 1933. .....Effective December 4, 1933.

Large quantity discounts on washers in groups from 25,000 to 250,000. The discounts are in four increments of 2% each and are identical with those of other companies filing on about this date.

Note: It is certain that this filing is to meet some company but at this date the filing system of the Code Authority does not readily show this.

December 28, 1933 .....Effective December 28, 1933.

This filing increases the discounts for 10,000 lots of washers to the discounts quoted for 100,000 lots in the previous filing but does not disturb the discounts for smaller lots. Apparently nullifies most of the preceding filing.

February 2, 1934. .....Effective February 12,1934.

Quoting the discounts effective December 11, 1933 to "approved fabricators" and "approved distributors" rather than specific companies.

May 4, 1934 .....Effective May 4, 1934.

Quoting 15% additional to pump valve distributors who purchase pump values machined to size. To meet Company #11.

June 19, 1934 .....Effective June 29, 1934.

Some discounts on tubings. Formerly quoted 40-15% etc. The 15% in now discontinued. (Also subject to additional 5% by note at bottom of page.) To meet Company #25.

June 20, 1934 .....Effective June 30, 1934.

General revision of discounts on washers and Sheets. Discounts on paper base sheets are lowered 5 or 6% and on L and C Grades from 5- 8% in all quantity groups. However, at the bottom of the sheet it is noted that these discounts are subject to an additional 5% discount. The net change, therefore, will not exceed about 2% lower. The discounts on Washers are increased from 6 - 12% on all quantity groups of paper stock and lowered from 2 - 5% on grades of C and L stock over 1/4 inch thick. Discounts on Rods remain unchanged. To meet Company #25.

June 20, 1934 .....Effective June 30, 1934.

Price instructions for Government quotations. This is discussed in detail elsewhere for the entire industry and this filing is in accord with instructions made by other manufacturers.

July 3, 1934 .....Effective July 13, 1934.

Lowering discounts 5 - 10% on different quantity groups of Special Color, paper base tubing. Last quoted June 19,1934. To meet Company #25.

July 10, 1934 .....Effective July 20, 1934.

To pump valve distributors for resale purpose, 15% in addition to quantity discounts (apparently this duplicates the filing effective May 4, 1934 made to meet Company #11. To meet Company #25.

August 8, 1934.....Effective August 18, 1934.

Discount on 2500 feet or over of X and XX tubing 65 - 15%. To meet Company #31.

November 14, 1934.....Effective November 19,1934.

Original quotations on Grade S material. Discounts are from 12 - 18% higher than for cheapest previous paper base sheet stock. Washer discounts are proportionately cheaper. To meet Company #23.

November 8, 1934 .....Effective November 18,1934.

November 12, 1934 .....Effective November 12,1934.

Apparently this filing only consolidates all previous filings affecting tubing.

December 6, 1934.....Effective December 10,1934.

Limiting special quantity discount on lots of over 2500 feet to tubing of round section only. To meet Company #31.

February 16, 1935. .....Effective February 26, 1935.

Pricing instructions for threading changes on all sizes of tubing.

COMPANY # 22

October 6, 1933 .....Effective September 28, 1933.

This company is listed as an Industrial Fabricator of Laminated Phenolic Products of Company #33 and as such, files the price filings of that company.

See Company #33 filing effective September 28, 1933.

November 8, 1933 .....Effective November 18,1933.

November 2, 1933 .....Effective November 12,1933.

See Company #33 filing effective November 13, 1933.

November 11, 1933 .....Effective December 9, 1933.

Increasing discounts on large quantities of washers in groups from 25,000 to 250,000 and over. The increases are uniform and in accord with increases of other companies.

January 2, 1934 .....Effective January 12, 1934.

See Company #33 filing effective January 12, 1934.

March 23, 1934. .....Effective April 2, 1934.

See Company #33 filing effective April 2, 1934.

June 6, 1934 .....Effective June 5, 1934.

See Company #33 filing effective June 5, 1934.

August 10, 1934 .....Effective August 13, 1934.

See Company #33 effective August 13, 1934.

August 16, 1934 .....Effective August 27, 1934.

See Company #33 filing effective August 27, 1934.
Note: Marked to meet prices of Company #33.

November 21, 1934 .....Effective November 19,1934.

See Company #33 filing effective November 19, 1934.

December 31, 1934.....Effective December 31, 1934.

See Company #33 filing effective December 27, 1934.

April 8, 1935.....Effective April 8, 1935.

See Company #33 filing effective April 8, 1935.

April 24, 1935.....Effective April 30, 1935.

See Company #33 filing effective April 30, 1935.

COMPANY #23

October 2, 1933 .....Effective October 12,1933.

One of the large units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

Attached to this filing are instructions for computation of prices together with instructions for quoting on government inquiries.

November 23,1933 .....Effective December 4, 1933.

Discounts on larger quantities of Washers which are comparable with those of companies filed on or about this date.

December 1, 1933 .....Effective December 7, 1933.

Revising above discounts. Only change is to add from 1 to 2% to quantities over 250,000 in various grades. Also limiting these prices to Washers under 2" finished diameter.

December 19, 1933 .....Effective December 26,1933.

Further revision of above prices. Discounts are raised on 10,000 lots of Grade C Washers less than 1/4 in. thick and lowered on Grade L.

March 31, 1934.....Effective March 31, 1934.

Correcting paragraph of original filing relating to random lengths of rod to read "standard random lengths approximately 18", 24", 36", 48".

April 24, 1934.....Effective May 4, 1934.

Instructions for calculating prices of doctor blades from the price lists. This filing also extends maximum discounts regardless of quantity to paper machinery manufacturers. To meet prices of Company #33.

May 26, 1934.....Effective June 5, 1934.

Quoting to pump value distributors for resale a 15% discount on machined to size pump valves in addition to usual quantity discounts.
To meet prices of Company #11.

Sheets. Discounts are lowered up to 8% on all grades and quantities of sheets. The average change is from 4 to 5%.

Washers. Discounts on all grades of washers up to 1/4" thick are varied on small quantities and lowered on larger quantities. The change is from 2 to 14% increase in small quantities to 2 or 3% decrease in the large quantity groups. This filing nullifies part of the former filing on quantities in excess of 10,000 since the discount for 10,000 is higher than some of the discounts quoted for still larger quantities.
On Washers of more than 1/4" thick the discounts are lowered 3 - 4% throughout.

Tubing. The discount is lowered by dropping an extra 15%: for example, 45 and 15% becomes 45%.

To meet Company #5.

June 7, 1934.....Effective June 12, 1934.

Instructions for quoting on government inquiries.

August 9, 1934.....Effective August 13, 1934.

Quoting discounts on tubing inside diameters up to 2" of 65 and 15% in lots of 2500 or over.
To meet Company #31.

November 9, 1934.....Effective November 19, 1934.

Discounts quoted on Grade S material ranging from 10 to 20% higher than any previously quoted material. The filing is in line with the filings of other companies of this date and is not marked to meet prices of any company.

November 26, 1934.....Effective November 26, 1934.

Explaining that Grade S material is only made from 1/32" to 1/8" thick. (as quoted)

December 5, 1934 .....Effective December 10, 1934.

Limiting special discount on 2500' of tubing which had been quoted on August 15, 1934, to tubing of round section only. To meet prices of Company #31.

February 13, 1935.....Effective February 23, 1935.

Quoting additional 16-2/3% to fabricators on all types and grades. To meet Company #33 prices effective January 25, 1935.

Marbh 28, 1935.....Effective April 8, 1935.

Discounts lowered 5% on all quantities of Grade S sheet and 2/3% on Washers.

COMPANY #34

September 19, 1933.....Effective September 23, 1933

One of larger units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

December 6, 1933.....Effective December 7, 1933.

Discounts on quantities of Washers in lots of over 10,000 and up to 25,000. These are increases over the discounts for 10,000 lots and are in five steps of 2% each.

December 29, 1933.....Effective December 29, 1933.

Revision of Washer discounts in line with filings of other companies' filings of this date. The filing of this company changes only one item. The discount on 10,000 lots of X and XP grade material is raised 5%.

February 21, 1934.....Effective February 21, 1934

Correcting typographical error in Instruction for Government Quotations.

April 6, 1934.....Effective April 6, 1934.

Quoting standard lengths of tubing as 18", 24", 36", 48".

April 10, 1934.....Effective April 20, 1934.

Change in wording to "Minimum charges (of any kind) not applicable to commercial gear cutters." This is only correction of typographical error.

June 1, 1934.....Effective June 5, 1934.

Sheets. Discounts are lowered up to 8% on all grades and quantities of sheets. The average change is from 4 to 5%.

Washers. Discounts on all grades of Washers up to 1/4" thick are raised on small quantities and lowered on larger quantities. The change is from 2 to 14% increase in small quantities to 2 or 3% decrease in the large quantity groups. This filing nullifies part of the former filing on quantities in excess of 10,000 since the discount for 10,000 is higher than some of the discounts quoted for still larger quantities. On Washers of more than 1/4" thick the discounts are lowered 3 - 4% throughout.

Tubing. Discount is lowered by dropping an extra 15%: for example 45 and 15% becomes 45%.
To meet Company #5.

COMPANY #24

June 6, 1934.....Effective June 12, 1934.

New Instructions for Government Quotations.

August 22, 1934.....Effective September 1, 1934.

Quoting 65 and 15% on up to 2" inside diameter tubing in quantities of 2500' or over.

November 12, 1934.....Effective November 19, 1934.

Quoting on Grade S material ranging from 10 to 20% higher than any previously quoted material.
To meet Company #23.

December 1, 1934.....Effective December 1, 1934.

All sheet specialties, washers and fabricated parts are granted an additional 5%.

December 17, 1934.....Effective December 27, 1934

The above discount is extended to sheets, discs, gear blocks and pump valves.

COMPANY #25

This company is one of the large units of the industry but it does not quote the same prices as other members of the industry. In general this company maintains a price which is from 5 to 25% lower than prices of its competitors. The prices of the various types of products are discussed below in comparison with the uniform price quotations of other companies in the industry.

The general set-up of prices is similar to that of other companies in the industry and designations of material grades, sizes, dimension tolerance etc., conform with NEMA standards. In some cases the "uniform" price lists are used and different discounts, usually lower, are quoted. In other forms or grades of material, net prices may be quoted.

Sheets.

Sheets are quoted on the basis of net prices per pound for various grades and thicknesses. Three quantity groups are set up as follows:

Orders of less than 1,000 lbs.
Orders of over 1,000 lbs.
Quantities of 5,000 lbs. per year or requirements contracted.

The ratio of variation in net price on various quantities approximates 68 - 63 - 55.

COMPANY #25

The prices of this material in lots of 1,000 lbs. and over compare with the calculated net prices of over 300 lbs. of similar grade material show the following approximate difference in net price:

In Grades X and XP, paper base material both the 1/64" thick and 3/32" thick material are 25% lower in price. In the fabric base linen grade, or Grade L, less variation is shown. In this case the 1/64" thickness is 5% lower and the 3/32" thickness is 12½% lower. In grades X, XX and XXX 1/64" is 26% lower and in 3/32", it is 32% lower. Note: It is the uniform practice in the industry to quote the same price per pound on all material over 3/32" thick.

There is a limited set-up covering fabrication charges and in general fabricated parts will have prices quoted on request. Prices are also quoted on request for mechanical and structural grades of sheet as well as sheet and fabricated parts for special application.

Washers, Discs, Gear Blanks and Pump Valves.

The "uniform" washer price list applies but different discounts are quoted. These discounts in Grade X, XX and XXX in any thickness, and Grades C and L less than ¼" thick range from 4 to 12½% lower than the "uniform" discounts. The average is approximately 8%. Gear Blanks ¼" thick and over in Grades C and L are from 4 to 6% lower.

Tubing.

The "uniform" washer price list applies but different discounts are quoted. The uniform practice is to quote tubing on a discount such as 60 and 10% etc. This company quotes a single discount which in most cases is approximately equal to the sum of the two discounts for the similar grade of material under the uniform discount system. This gives a net price which will range from 3 to 8% lower.

Delivery.

The terms of delivery and payment also vary from those of competitors. Shipments of 100 pounds or more are made from Melrose Park, Illinois or New Brunswick, N. J. with full freighting allowed to any point within the United States.

Terms of payment are cash discount of 2% and net 30 days. It is not usual in this industry to quote a cash discount.

October 20, 1933.....Effective October 28, 1933.

Quoting a maximum discount on Washers of each grade of material. These discounts range from 4 to 15% higher than previously quoted discounts on lots of 1,000 and over, the greatest increase being on grades C and L ¼" thick or over. Note: This filing does not specify any quantity group or any point at which these maximum discounts will be applied.

April 4, 1934.....Effective April 14, 1934

COMPANY #25

This filing is a complete revision of the original filing and is apparently fully in line with the "uniform" price filing system of this industry.

The filing is apparently identical to the filing of Company #33 which was effective January 12, 1934 and those of other companies effective on or about that date. All of the discounts and pricing methods covered in the original filing are revised and brought in line with those of other companies including a change in terms of delivery and terms of payment both of which are now the same as those quoted by other members of the industry.

April 4, 1934.....Effective April 14, 1934.

Instructions quoting Government Inquiries. These instructions are similar to the standard method used in the industry.

May 9, 1934.....Effective May 19, 1934

Maximum discounts are quoted on doctor blades to manufacturers of paper machinery regardless of quantity.
To meet Company #23.

May 9, 1934.....Effective May 19, 1934

"An extra discount of 10% for Mill deliveries on gear blanks in Grade C and Grade L in thicknesses ½" and over will be allowed."

The commercial gear cutters who cut gears for sale are quoted maximum discounts on gear blanks, sheets, cut blocks and strips of Grades C and L.
To meet Company #32.

May 9, 1934.....Effective May 19, 1934.

An extra 15% is quoted to distributors of pump valves who purchase for resale. This is in addition to the regular quantity discounts.
To meet Company #11.

May 31, 1934.....Effective June 9, 1934.

Revision of prices on tubing. Tubing prices had formerly been quoted to discounts such as 60-15, 50-15 etc. 15% is now discontinued and only the original discounts quoted.

June 4, 1934.....Effective June 14, 1934.

Revision of discounts on all forms and grades. The only change in sheet discounts is a lowering of discounts on XX and XXX about 4% on orders up to 300 lbs.

The discounts on XX and XXX washers are raised from 5 to 12%, the greatest change being in the smaller quantities.

COMPANY #25

June 14, 1934.....Effective June 20, 1934

Revision of discounts. All discounts on all grades except D are lowered on the average of approximately 6%.

Washer discounts on X, XP, XX, XXX grades are lowered 1% on orders of 1,000 to 999 pieces, and 7 on orders of over 10,000 pieces. XX and XXX grades are combined with X and XP grades in this filing, which means a slightly higher reduction in the case of the first two grades. Grades C and L, less than ½" thick in quantities above 1,000 are lowered from 3 to 7%.

Washers in grades C and L over ½" thick are reduced from 3 to 5% in all quantity groups.
To meet Company #8.

June 21, 1934.....Effective July 2, 1934.

Superseding former instructions for quotations on Government Inquiries. This makes provision for changes made in the intervening period.

July 18, 1934.....Effective July 28, 1934.

Instructions for figuring prices of extras in special fabrication work.

August 16, 1934.....Effective August 27, 1934.

Quoting a discount of 65-15% on Grade X or XX tubing up to and including two inches inside diameter in quantities of 2,500 feet and over.
To meet Company #31.

November 12, 1934.....Effective November 22, 1934

A revision of discounts on Grades X and XP. The discount is increased on all quantities 15 to 13% on sheet stock and washer discounts are increased from 10 to 16%.

Note: This filing cancels a special 5% discount on tubing.
Note: The original filing of this special 5% discount cannot be located but apparently it had been filed to meet a similar filing of Company #21.

December 5, 1934.....Effective December 15, 1934.

Revision of washer discounts, Grades XX and XXX are quoted together with Grades X and XP at approximately the same discounts effective November 22, for Grades X and XP. Washers are also quoted on a new material evidently identical to Grade S. Discounts on washers of this material range from 1 to 5½% higher than other paper base grades.

December 17, 1934.....Effective December 27, 1934.

The discounts on Grades X and XP in sheet form are quoted together with the Grade S material at discounts from 15 to 18% higher than previous quotations for Grades X and XP.

Washer discounts on Grades XX and XXX are again quoted separately and at discounts from 12 to 14% lower than one previously quoted together with Grades X and XP.

January 7, 1935.....Effective January 17, 1935.

"Trade discounts to distributors and agent jobbers of all grades of material will be 16-2/3%."

February 18, 1935.....Effective February 23, 1935.

16-2/3% discount in addition to quantity discounts quoted to fabricators on all grades and forms.
To meet Company #23.

February 18, 1935.....Effective February 28, 1935.

This filing evidently clarifies the filing effective January 17 but does not materially change the filing. It specifies sheets, rods, tubes, angles and channels being included in the discount and also states that the 16-2/3% is in addition to any quantity discounts.

March 7, 1935.....Effective March 18, 1935.

Correct typographical error in establishing price of combination fabric and paper sheets.

October 15, 1934.....Effective October 15, 1934.

See Company #32 filings effective January 2, 1934, Jan. 6, 1934.

November 21, 1934.....Effective November 19, 1934.

See Company #32 filing effective November 19, 1934.

March 23, 1935.....Effective April 1, 1935.

Quoting additional 5% on washers and specialties.

April 4, 1934.....April 3, 1934.

See Company #32 filing effective January 2, 1934.

April 3, 1934.....April 13, 1934.

Prices and discounts on Grade S material of Company #32. Filing is the same as Company #32 filing but bears the name of Company #29, only.

December 10, 1934.....December 20, 1934.

5% additional discount on Washers and specialties (on letter head of Company #29.)

COMPANY #30

September 22, 1933.....Effective September 23, 1933.

This company is one of the large units in the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

October 25, 1933.....Effective October 25, 1933.

Correcting typographical error.

November 23, 1933.....December 3, 1933.

Special discounts on quantities of Washers and on Specialties under four square inches area, in excess of 10,000. Discounts are in 5 increments of 2% and extend up to lots of 250,000 and over.

November 27, 1933.....Effective December 7, 1933.

Increasing discount on Washers in quantities over 250,000 from 1 to 2%.

December 26, 1933.....Effective December 26, 1933.

Increasing the discount on 10,000 lots of washers by about 5% which nullifys most of the preceding filings on larger quantities.

April 5, 1934.....Effective April 15, 1934.

Discounts to one specific agent of 15% on sheets and 10% on rod, tubing and specialties.

April 14, 1934.....Effective April 24, 1934.

Adding certain standard random lengths of rod and tubing up to 48" and 36" respectively.

June 1, 1934.....Effective June 11, 1934.

Discounts to another specific agent ranging from 10 to 15% on various quantities of sheet, tubing and rod.

June 7, 1934.....Effective June 5, 1934.

Raising discounts on paper base washers and Grade C and L washers under 1/4" thick from 6 - 10% on quantities up to 1,000 and lowering discounts of both types from 1 - 4% on quantities over 1,000.

June 7, 1934.....June 5, 1934 (continued)

Grade C and L washers over 1/4" thick are reduced in all quantity groups from 3 to 5%, the largest reductions being on the smallest quantities.

Also quoting to Jobbers (for resale) a discount of 15% in addition to usual quantity discounts.

June 4, 1934.....Effective June 14, 1934.

Quoting to a specific agent: List less maximum discount plus 15% on sheets, rods and tubes.
Specialties - less 15%
Washers - less 15%

August 7, 1935.....Effective August 13, 1935.

All paper base tubing in lots of 2500' or over 65-15%
To meet Company #31.

August 11, 1935.....Effective August 13, 1935.

Limiting above to tubing of 2" I.D. and under.

November 14, 1935.....Effective November 19, 1935.

Quoting discounts on Grade S material. These discounts are from 14 to 15% higher in all quantities than previously quoted paper base stock. Approximately the same differential applies on washers.

November 17, 1935.....Effective November 19, 1935.

Explaining that Grade S is supplied only in black and natural colors only.

November 20, 1934.....Effective November 30, 1935.

Offering Grade S in brown color in addition to the black and natural above.

December 21, 1934.....Effective January 2, 1935.

This filing is identical with the above filing except that it does not have the added note governing the colors of Grade S.

COMPANY #30

February 16, 1935 ..... Effective February 23, 1935.

To fabricators, usual quantity discounts plus 16-2/3%.
To meet company #23.

April 2, 1935 ..... Effective April 8, 1935.

Lowering discounts on Grade S washers from 2 to 4% on all quantities.
To meet Company #23.

April 2, 1935 ..... Effective April 8, 1935.

Lowering discounts 5% on all quantities of Grade S sheet.
To meet Company #23.

COMPANY #31

September 25, 1933 ..... Effective September 28, 1933.

This company is one of the larger units of the industry and its quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

November 24, 1933 ..... Effective December 7, 1933.

Discounts on quantities of washers in excess of 10,000. The discounts are in 5 increments of about 2% and extend to 250,000 pieces and over and apply on Grades X, XX, XXX, C and L of less than 2" diameter and 1/4" thickness.

December 19, 1933 ..... Effective December 26, 1933.

Raising discount about 5% on 10,000 lots and over of washers of Grades X, XP, XX, XXX and thickness and diameter and Grades C, L less than 1/4" thick.

March 21, 1934 ..... Effective March 21, 1934.

Correcting standard random lengths of tubing.

April 1, 1934 ..... Effective April 11, 1934.

Cancelling extra charge for special tolerances on tubing.

May 28, 1934 ..... Effective June 5, 1934.

To meet Company #5.
Lowering discounts on all paper base sheets by from 3 to 5% and on fabric base sheets from 6 to 9% on all quantities.
Discounts are raised from 6 to 18% on quantities of washers up to 1000 and lowered from 6 to 8% on quantities above that.

COMPANY #31 (Continued)

The largest changes are in Grades XX, XXX which are quoted together with X and XP in this filing.

May 28, 1934 ..... Effective June 5, 1934.

Discounts lowered on tubing. Formerly quoted 60-15 etc. the extra 15% is now discontinued.

August 3, 1934 ..... Effective August 13, 1934.

Grades X and XX tubing up to 2" I.D. Quoted at 65-15% on quantities of 2500 or over.

November 13, 1934 ..... Effective November 19, 1934.

Quoting Grade S material at same discounts as those of other companies on sheets and washers.
To meet Company #23.

November 30, 1934 ..... Effective December 10, 1934.

Limiting the special discount on tubing, effective June 5, 1934, to tubing of round section only.

March 30, 1934 ..... Effective April 8, 1934.

Lowering discounts on Grade S material. Sheet discounts are lowered 5% on all quantities and washers from 1 to 3%, the greatest change being on the larger quantities.
To meet Company #23.

COMPANY #32

October 2, 1933 ..... Effective September 28,1933.

One of the larger units of the industry; its quotations are in line with the system in universal use in the industry. This system is discussed on the introduction to this study.

Note: Washers discounts are not quoted.
Note: "Terms" until Jan 1, 1934 - 2% 10 days, net 30 days.

October 20, 1933 ..... Effective October 30, 1933.

Reserving right to quote NEMA members at prices "determined to be proper". It is mentioned in the filing that this is in accord with long established custom in the industry.

December 1, 1933 ..... Effective December 10,1933.

Stating that original filing applied to shipments from "local" stock. On shipments from the mill an extra 10% will be allowed.

COMPANY # 32 (Continued)

January 24, 1934 ....., January 24, 1934.

Filing of discounts on washers and gear blanks. This was not covered in original filing and this filing quotes the same discounts as those in effect by other companies of this date.

Note: It is noted in this filing that the 10% "shipment from mill" discount will only apply on Gear Blanks, Grades C and L, over 1/4" in the thickness.

April 13, 1934 ..... Effective April 14, 1934.

Revision of prices of sheets, washers and gear blanks.
Washers and Gear Blanks.
The "shipment from mill" discount is lowered to 5% and is printed in the filing. In the previous filing, the explanation of the application of the discount had been typed on the printed sheet and the discount was expressed "Shipment from mill - less 10% discount".
Sheets.
The discount on sheets is not changed but the "shipment from mill" discounts is lowered to 5%. Evidently the 10% filed December 1, 1933 remained in effect until this time.

April 13, 1934 ..... Effective April 14, 1934.

Instructions for calculating prices from price filings.

June 6, 1934 ..... Effective June 16, 1934.

General Revision of discounts.
Sheets.
Sheet discounts increased from 18 to 23% on all paper grades.
Grades C and L are decreased from 4 to 8%.
Washers.
Paper grades and C and L under 1/4" discount raised from 3-12% in quantities up to 1,000 and decreased from 1-17% on larger quantities.

The greatest change up and down being on C and L grades.
Grades C and L over 1/4" thick.

Discounts are lowered from 3 - 6% on all quantities of both grades.

November 14, 1934 ..... Effective November 19, 1934.

Filing on Grade S material which is in line with filings of other companies on this material. The filing refers to Sheets, Washers and Specialties.
To meet Company #23.

COMPANY #32 (Continued)

December 26, 1934 ..... Effective January 5, 1935.

Quoting 10% discount on Grade S to distributors and fabricators.

January 29, 1935 ..... February 8, 1935.

Withdrawing only the discount in the preceeding filing on Grade S to distributors and fabricators.

COMPANY # 33

September 28, 1933 ..... Effective October 18,1933.

This company is one of the large units of the industry and the quotations are in line with the system in universal use in the industry. This system is discussed in the introduction to this study.

This company has a greater variety of grades than most of others and use a number to identify a grade instead of the conventianal letter which makes it difficult to compare changes in each item with other companies. However, certain grades are exactly comparable and these are the ones which are particularly discussed therein.

November 3, 1933 ..... Effective November 13, 1933.

Lam. Phenol, Products for Industrual Purposes.
The following instructions apply for pricing Micarta to special customer classifications.

Industrial Fabricators.

Class A - This class includes those fabricators whose purchases during the previous 12 months aggregated less than $10,000. Prices to this class are based on Trade Discount Sheet XXXX, using maximum quantity discounts and an additional 10%.

Class B - This class includes those fabricators whose purchases during the previous 12 months aggregated $10,000 or more. Prices to this class are based on Trade Discount Sheet XXXX, using maximum quantity discounts and an additional 16-2/3%.

Note - Classification for newly appointed industrial fabricators, whether A or B, will be determined by loading figures arrived at by negotiation with such fabricators.

Employees.

Prices to employees of the Company for ----- are based on Agent-Jobber Cost Sheet 63-007, using maximum quantity

COMPANY #33 (Continued)

discounts.

January 2, 1934 ..... Effective January 12, 1934.

Adding a new type of material at normal discounts.
Revision of discounts on Washers less than 1/4" thick of paper base material. Quantities of 1000 and over have the discounts lowered from 3-5%. No change in discounts of fabric base washers of over 1/4" thick.

March 19, 1934 ..... Effective March 29, 1934.

Correcting typographical errors in preceeding filing. Changes are noted on filing in discounts on Washers but a close check does not show what they are.

June 4, 1934 ..... Effective June 5, 1934.

General revision of discounts on Plate, Washers and tubing.
Plate discounts are decreased from 4-18%, the larger decreases being on paper base material.
Washer discounts increased from 6-20% in quantities up to 1,000 and decreased from 3-10% in quantities over that.

Tubing. Formerly quoted as 60-15%. The extra 15% is now discontinued. First discount of 60% retained. This same change applies on angles and channels.

August 8, 1934 ..... Effective August 13, 1934.

Discount on 2 grades of paper base tubing up to 2" I.D. on orders of 2500" or over on additional 15% applies.

August 14, 1934 ..... Effective August 27, 1934.

Applying preceeding discount to 2 more grades of tubings.

November 16, 1934 ..... Effective November 19, 1934.

Filing on the Grade S material introduced by other companies.
The discounts are the same as those offered by other manufacturers.
To meet Company #23.

November 11, 1934 ..... Effective December 10,1934.

Supersedes Issue Dated Nov. 13, 1933. Special Instructions Effective December 10,1934.

Lam. Phenol. Products for Industrial Purposes.
Plate, Rod, Tubing, Angles and Channels.

COMPANY # 33 (Continued)

Industrial Fabricators.

The term "Fabricator" is defined to mean a person, firm or corporation performing the functions hereinafter mentioned whose business is the buying, selling and/or fabricating of plate, rod or tubing made of laminated materials bonded with synthetic resins to users and consumers of such materials and whose business as such is subject to the regulations of the Electrical Manufacturers' Code.

Provided, however, such persons, firm or corporation performs the following functions, but does not perform such functions to secure fabricator prices for themselves as manufacturers of other products or for the benefit of allied persons, firms or corporations:

1. Maintains and warehouses a stock of all such standard laminated phenolic products sufficient to serve the requirements of his customers adequately.

2. Maintains delivery service and facilitates for pickup service.

3. Maintains a selling organization trained to promote, specify and quote on laminated phenolic products and to handle matters of service with his customers properly.

4. Distributes catalogs showing and describing the most essential items in common use in the industry.

5. Extends justified credit to the buyers within his territory upon reasonable terms.

Discount Schedule

The following applies to Fabricators who are not in the business of making and/or selling completely finished gears. (*)

Material	Discount
Grade S	Maximum quantity discounts
Grade S	Trade Discount Sheet plus an additional 10%.
All industrial Grades of Plate (excepting Grade S Rod, Tubing, Angles and Channels.	Maximum quantity discounts Trade Discount Sheet plus an additional 16-2/3%.

Note: When Industrial Fabricators purchase plate, Rod, Tubing, Angles and Channels and Grade S in other than standard sizes and lengths as listed in Descriptive Data Sheet, the maximum quantity discount only will be given in accordance with Trade Discount Sheet.

(*) - Fabricators engaged in the manufacture and/or sale of completely finished gears will be given maximum quantity discount only in accordance with Trade Discount Sheet on Grades C and L 1/4" thick and over.

COMPANY #33 (Continued)

December 27, 1934 ..... Effective December 27, 1934.
Extending discounts on Grade S material to include 3 other grades of paper case material (only on thicknesses 1/32" to 1/8")
To meet Company #25.

January 15, 1935..... Effective January 25, 1935.

Withdrawing Grade S material from filing effective December 13, 1934. Others remain unchanged.

April 5, 1935 ..... Effective April 8, 1935.

Lowering discounts on the 3 grades quoted in filing effective December 27, a uniform 5% in all quantities is sheet form.
Washers in these materials lowered 3-5%.
To meet Company #23.

COMPANY #34

This company quotes prices and sets itself up as a primal manufacturer but the Code Authority has never considered it as such. While it has been considered as a fabricator it is not known whose material is sold in basic form or as fabricated parts. The company has its own trade name for the material and since all of the list prices and discounts are in line with those of other companies, it will necessarily be treated as a primal manufacturer.

Terms are 30 days net - which is uniform in the industry.

Delivery is as follows:
"Freight charges will be allowed on shipments on or east of the Mississippi River, and in Ontario and Quebec, Canada. To all other points, an allowance of 70c per 100 lbs. will be made."

With the exception of delivery, the conditions of sale are exactly the same as most of the large units of the industry.

November 29, 1933.....Effective December 8, 1933.

Discounts on quantities of washers above 10,000.
Discounts are in increments of 1 and 2 per cent and extend in 5 steps up to quantities over 250,000.

December 6, 1933.....Effective December 11, 1933.

Increasing the above discounts in washers in some quantity grade groups not more than 1% to bring the quotation in line with the quotations of other companies.
Note: It is possible that this company initiated the first move, effective December 8 (the filing was marked filed 11/28 by the company but stamped 11/29 by NEMA) and then when other companies filed slightly higher discounts increased their original discounts to the uniform level.

COMPANY #34 (cont'd)

December 26, 1933.....Effective November 26, 1934.

Increasing the discounts on quantities of washers, all grades, from 1000 to 10,000 and over by from 3-5%. The 5% increases are nearly all in the 10,000 groups.
Discounts on C and L grades over $\frac{1}{4}$" thick are not changed.

May 31, 1934.....Effective June 5, 1934.

General revision of discounts.
Sheets. All grades and quantities of sheet are lowered from 4-8% in all quantity groups.

Washers. Grades X, XP, XX are grouped together and the discounts on all quantities above that are reduced from 1-7%. The largest increases are in the case of Grade XX which was quoted at a discount 5% lower than X and XP.

Note: It was uniform practice in the industry to quote the same discounts on X, XP, and XXX sheets but to quote the higher discount on XX washers.

Tubing. The extra 15% previously quoted on all tubing is discontinued and the original discount is retained.
To Distributors of pump valves for resale: usual quantity discounts plus 15%.

To meet Company #11 filed April 24, 1934.
To meet Company #23 effective June 5, 1934.

June 14, 1934.....Effective June 25, 1934.

Instructions for quoting government inquiries which were uniform throughout the industry.

August 11, 1934.....Effective August 13, 1934.

On tubing up to 2" I.D. in quantities of 2500 a discount of 65-15% is quoted.

To meet Company #31.

November 19, 1934.....Effective November 19, 1934.

Filings on Grade S material which are same as filings on this grade by other companies.

INSTRUCTIONS FOR PRICE CALCULATIONS

Listed below are prices and methods of figuring items not covered by the printed schedules:

SHEETS — All fabric material made of fabric over 6 oz. per sq. yd. is classified as canvas or grade CO, and material made from fabric 6 oz, or under per sq. yd. is classified as linen or grade L. Grade XXN black takes same list prices as Grade X.

STRIPS & BLOCKS

For squares and rectangular blocks 3.16" and less in thickness, take from conversion table equivalent O.D. of washer. Apply washer discounts for quantity and grade.

Standard sheets, blocks, strips and specialties not coming within the conversion table, and of different grades, colors and thicknesses may be aggregated in determining quantity discounts.

Pieces out from combination sheet stock or pieces converted to washer equivalent from combination sheet stock make the addition or deduction from or to base prices only.

The weight of CUT PIECES is to be calculated as follows:

Use tables per sheets 5 and 5 A on all sizes of blocks or cut pieces to arrive at weight per M. pieces.

Intermediate thicknesses figure from sheet 5 using factor for 1" thickness and multiplying by exact thickness required carrying decimals three points only in final answer.

Intermediate widths or wider than listed, figure from sheet 5 using factor for 1" wide and multiplying be exact width required carrying decimals three points only in final answer.

Intermediate lengths or longer than listed use figure from 5 A using factor for 1" length and multiplying by exact length required carrying decimals three points only in final answer.

Multiply the two factors thus obtained to find weight per thousand pieces.

Retain the decimal ONE point only in weight of 1,000 pieces and drop the remainder of decimal, if any.

Example:- Pieces 19,628 long 3,415 wide .647 thick

Sheet 5

1" wide x 1" thick = 256

3.415 wide x 1" thick = 3.415 x 256 = 874.24

3.415 wide x .647 thick = 874.24 x .647 = 565.633

565.633 factor for width and thickness

Sheet 5 A

1" long = .195 x 19.628 = 3.827

3.827 = factor for length

565.633 x 3.827 = 2164.6 = weight per M. pcs.

Squares and rectangles not covered by conversion table use standard cutting charge.

Pieces containing less than 100 square inches and not coming within range of conversion table. Quote price per M. carrying decimal two points only in all figures after weight per thousand.

Example:- 1,000 pieces XP natural bakelite 7" x 4" x 1/32"
43.7# per M. x 3.15 per lb. = 137.55 list
less 64% = 49.55 M. Quote 49.55 per M. net

Pieces containing over 100 square inches. Figure per thousand and quote NET PRICE EACH dropping all fractions beyond two points in thousand price as above and in price each in final answer.

Example:- 100 pieces natural CO bakelite 24" x 19" x 3/8" thick.
Weight per M length 24 x .195 = 4.680
Thickness & width factor 96 x 19 = 1824
8536.3 lbs. per M.
8536.3# M x 2.30 = 19633.49 M -60% 7853.39 per M or
7.85 each

Strips out to width but not to length may be quoted per pound or per thousand lineal feet.

ANGLES & CHANNELS

To obtain the list price on L shaped or U shaped channels measure the inside periphery of two such angles or channels placed together to form a rectangular tube and divide by 3.1416; this will give the diameter of the equivalant round tube.

For example:- take the following inquiry: Quote on ten L shaped angles where the dimension of the short leg is 3" and the long leg is 6", angles having 1/8" wall, and in standard lengths.

The inside periphery of two such angles placed together would be 18". Divide this by 3.1416 which gives us 5.729 as the dimensions of the equivalent round tube. This being a size not listed we take the next larger size, namely, 5-3/4".

By reference to the schedule we find the list price of tubing 5-3/4" I.D. x 1/8" wall is $4.15 per ft. To this add 30% for forming, etc., giving us a list price on L shaped pieces of the dimensions given in the inquiry of $5.395 per foot. Here again divide by two to obtain the list price per lineal foot.

A similar inquiry covering U shaped channels with inside dimensions of the base 5" and the height of the legs 2" wall thickness of 1/8", in standard lengths, would be figured in the same way as the L shaped angles in the previous inquiry. By following through the operations it will be found that the list price on such channels would be the same, namely, $5.395 per foot. Here again divide by two to obtain the list price per lineal foot.

The schedule of cutting charges for angles and channels cut to specific size is the same as that applying to rod and tubing.

The discount schedule on angles and channels is as follows:

Paper base, same as grade XXE
Fabric base, same as Canvas tubing
Linen base, same as Linen tubing

If angles are furnished with rounded edges, punched, drilled, counterbored or tapped holes, or any extra work, they are to be considered as specialties and take an additional charge of not less than 10% for the extra work.

Tubes, angles and channels with decorative surfaces take the same discount schedule as above omitting the additional 15% discount now applicable to regular grades of bakelite tubing.

Prices apply to quantity ordered for shipment at one time.

WASHERS & DISCS

A standard washer is a round washer with one hole of any shape or location. A washer with more than one hole or a washer that is not perfectly round outside is a specialty and should be priced at 10% above the washer price. A washer with a definite flat on one or more sides should be priced on the basis of the smallest rectangular piece from which the part can be made.

Attention is called to the fact that maximum discounts on Co & L in thicknesses 1/4" and over are those shown for quantities of 1,000 and over. In these grades and thicknesses, do not use upper table showing 10,000 quantity discounts.

Washers under 1" diameter. Where thickness exceeds diameter and no list is given, figure as cut rod using the regular schedule price applying to cut rod.

On Canvas and Linen washers when necessary to use next thicker size for list price, use discount covering actual thickness specified.

Refer to price folder dated July 28, 1933 turning charges on washers "over 12" to 14" inclusive" and change this to read "over 12" diameter". The charges shown in these lines apply to all diameters over 12".

Minimum charge on any one size washers or washer specialties $3.00.

Any washers or discs larger than listed take list of one-half diameter and multiply by four, or in the case of blanks over 28" diameter use list of one-third diameter and multiply by nine. Do not interpolate for list. Use next larger diameter listed.

Recognized commercial gear cutters who regularly cut gears for sale are entitled to maximum discounts on gear blanks and sheets of grades "CO" and "L".

Allowance for centers on canvas and linen base bakelite washers. In arriving at the allowance for centers on gear blanks or gear rings, where the center is 10" to 14" inclusive in diameter, the allowance is based on 50% of the net price listed in price folder.

Where centers are over 14" in diameter, arrive at the list price of the center in the same manner as you would arrive at a list price of a blank of similar diameter, in accordance with the standard method, and the allowance is 50% of the net selling price of the centers thus obtained.

Refer to folder dated July 28, 1933 covering discounts on bakelite washers and discs and third page showing net extras for turned end for turned rounded edges. The last column of extras under these two headings is shown as "Over 3/4" to 1" inc.". Change this heading in both cases to read "Over 3/4" thick".

There is no allowance for centers under 10" diameter in any grade of stock, and no allowance for centers 10" and over in diameter in any grade other than Canvas or Linen.

Bakelite washers, discs, pump valves and gear blanks.
To arrive at list price of bakelite washers thicker than shown in price folder take list of washers 1" thick and multiply by actual thickness required.

Washers, washer specialties and pieces converted to washer equivalent, quote net price per hundred or net price each, depending upon the list, dropping fractions of a cent. Plain punched or band sawed washers quote list price less discount. On specialties the 10% is added after all other charges including turning and drilling are figured.

There is no charge for close limits on thickness of bakelite washers, gear blanks, discs, or any specialty figured on the washer conversion basis.

Minimum net price on washers, 6¢ per C.

SPECIALTIES

Regular quantity prices apply to all sheet specialties. Do not use maximum discount. Add not less than 10% for special work.

Sheet specialties 6" long and under and containing 16 square inches or less, and thickness; or plain cut blocks or pieces 3/8" and less in thickness 6" long and under and containing 16 square inches or less are based on the washer list under conversion table as shown on sheet A1, B1, C1, D1, and E1, to arrive at outside diameter of washers. Use washer list and discount. If a specialty add a minimum of 10% over the washer price for special work."

Minimum price on specialties 6¢ per hundred pieces.

Minimum charge $2.00 on all tube or rod specialties.
Sheet specialties, figured from the conversion table or otherwise, will take a minimum charge of $5.00.

Specialties containing less than 100 square inches and not coming

within the range of conversion table, and those also containing over 100 square inches shall be figured according to the same method as described for plain pieces, with an addition of at least 10%.

Panels with beveled edges should be classed as specialties.

Referring to certain applications of laminated bakelite products requiring long strips in excess of 96" in length, the following method of pricing should apply; Strips without any beveling or other machining operations use standard methods including cutting charge plus 10% where these strips are greater than 96" in length. Where fabricating aside from beveling is involved add a minimum of 10% fabricating charge. For beveling add a net charge of 15¢ per lineal foot of beveled edge. The above applies to all applications except decorative.

Tube & rod specialties. Figure regular quantity prices adding not less than 10% for special work.

Standard equivalent shall be figured from the smallest rectangle in which the piece may be fully contained. All circular pieces having flats, lugs or indentations on the outside diameter or irregularly shaped pieces shall be figured on this basis.

TUBING

Standard lengths, cut tubes or tube specialties may be aggregated to determine quantity discounts, but rods and tubes may not be aggregated with each other.

To determine list prices per foot of bakelite tubing of inside diameters greater than 8", use the following formula:

5/32" wall and under
$C \times t \times (ID \div t)$
Over 5/32" wall
$5.1 \times t \times (ID \div t)$
I.D. equals inside diameter
"T" equals wall thickness.

The above formula will give list prices which will synchronize with the standard schedule which covers tubing up to and including 8" inside diameter.

Threaded Tubes - See table of charges on Page 7. Charges shown cover outside threads only. Tubes and rods turned down and then threaded are specialties.

Combination fibre and bakelite tubes. - Where the fibre tube is on the inside and the bakelite tube on the outside, figure the price by using the overall dimensions of both tubes together as though it were a solid bakelite tube. For example, a combination tube in which the fibre was 3/16" x 5/8" and the bakelite 5/8" x

7/8" figure the price the same as a bakelite tube 5/16" x 7/8".

Where the fibre tube is on the outside and the bakelite tube on the inside, figure the separate price for the fibre tube on the regular fibre schedule and a separate price for the bakelite tube. Add these together for the price of the combination tube. There is no extra charge in this case for telescoping or assembling.

Tubes with round inside and square, hexagonal, octagonal, or special outside, prices to be figured same as round tube plus 10%.

Example: 1/4" round I.D. x 3/4" square outside price is $.89 per foot list plus 10%.

No charge for burring or breadking edges where no definite radius or bevel is given. Where a definite radius or bevel is given not less than 10% must be added. Prices to be furnished from the main office.

ROD

Threaded Rods - See Table of charges on Page 7. Charges shown cover outside threads only. Tubes and rods turned down and then threaded are specialties.

Standard lengths, cut rods or rod specialties may be aggregated to determine quantity discount, but rods and tubes cannot be aggregated with each other.

Cutting charges, threading charges and method of figuring cut rods and rod specialties same as tubes.

ROD SPECIALTIES. Figure regular quantity prices adding not less than 10% for special work.

Minimum charge rod specialties - $2.00 any one item.

Prices of bakelite rod over 4" diameter.
Square the diameter of the size rod you want and multiply by the list price of rod 1" diameter.

Example: To obtain price of rod 4-1/2" diameter:
4.5^2 x 2.16 = 43.74 per foot

4-1/4"	diameter	=	39.02	per	foot.
4-1/2"	"	"	43.74	"	"
4-3/4"	"	"	48.74	"	"
5"	"	"	54.00	"	"
5-1/4"	"	"	59.54	"	"
5-1/2"	"	"	65.34	"	"
5-3/4"	"	"	71.42	"	"

TUBES UP TO 2" OUTSIDE DIAMETER INCLUSIVE-

Threaded less than 30 threads per inch.

Threaded 1" long and under	$5.00	per M Pieces
" over 1" to 1-1/4" inc.	5.60	" " "
" " 1-1/4" to 1-1/2" inc.	6.00	" " "
" " 1-1/2" to 1-3/4" "	6.50	" " "
" " 1-3/4" to 2" "	7.00	" " "
" " 2" to 2-1/2" "	8.00	" " "
" " 2-1/2" to 3" "	9.00	" " "
" " 3" to 4" "	11.00	" " "
" " 4" to 5" "	13.00	" " "

Threaded 30 to 50 threads per inch, not inc.

Threaded 1" long and under	$8.00	"
" over 1" to 1-1/4" inc.	9.00	"
" " 1-1/4" to 1-1/2" Inc.	10.00	"
" " 1-1/2" to 1-3/4" "	11.00	"
" " 1-3/4" to 2" "	12.00	"
" " 2" to 2-1/2" "	14.00	"
" " 2-1/2" to 3" "	16.00	"
" " 3" to 4" "	20.00	"
" " 4" to 5" "	24.00	"

Threaded 50 to 60 threads per inch not inc.

Threaded 1" long and under	10.00	"
" over 1" to 1-1/4" inc.	11.50	"
" " 1-1/4" to 1-1/2" inc.	13.00	"
" " 1-1/2" to 1-3/4" "	14.50	"
" " 1-3/4" to 2" "	16.00	"
" " 2" to 2-1/2" "	19.00	"
" " 2-1/2" to 3" "	22.00	"
" " 3" to 4" "	28.00	"
" " 4" to 5" "	34.00	"

Threaded 63 threads per inch and over

Threaded 1" long and under	15.00	"
" over 1" to 1-1/4" inc.	17.00	"
" " 1-1/4" to 1-1/2" inc.	19.00	"
" " 1-1/2" to 1-3/4" "	21.00	"
" " 1-3/4" to 2" "	23.00	"
" " 2" to 2-1/2" "	27.00	"
" " 2-1/2" to 3" "	31.00	"
" " 3" to 4" "	39.00	"
" " 4" to 5" "	47.00	"

TUBES OVER 2" OUTSIDE DIAMETER UP TO 3" OUTSIDE DIAMETER

Threaded any number of threads per inch required.

Threaded up to 3" long inclusive	50.00	"
" over 3" to 4" long inc.	55.00	"
" " 4" to 5" long inc.	60.00	"

The above charges are net and cover threading only. These charges are to be added after all other charges are made. If there is no other work except threading, then the prices of the cut tubes should be determined plus threading charge applying to size and length as above. If the cut tube has holes or other work, then it would be the price of the cut tube plus 10% for the extra work then add charge for threading.

GENERAL INFORMATION
BAKELITE
GOVERNMENT INQUIRIES

Prices based on discounts for quantity ordered for shipment at one time shall be quoted on inquiries from all Government department. Sheets are quoted net prices per pound dropping fractions. Rods and Tubes are quoted net price per foot dropping fractions. This applies only to Government inquiries.

Delivery f.o.b. destination except West Coast or Panama Canal Zone, where 5% is added to net prices and dropping fractions as mentioned above.

When inquiries for sheet stock are made with unit specified per square inch, per square foot, or per sheet, weights are to be figured from the table using the weight of a square inch as the unit in each case carried to one decimal point per thousand square inches; i.e. 24.4 lbs. per M. sq. inch. Multiply weight thus obtained by net pound price i.e. 24.4 lbs. per M. sq. in. x $.80 per lb. = $19.52 M. sq. in. or $.01952 per sq. in. Carry decimal point four places only in price sq. in. $.0195 per square inch.

If this unit is specified per sq. ft. multiply $.0195 x 144 = $2.808 per sq. ft. Quote - $2.80 per sq. ft.

If this unit is specified per sheet 36" x 36" multiply $.0195 x 1296 equals $25.272. Quote - $25.27 per sheet.
Pieces cut to exact size are figured from the regular cut to size method using quantity prices in all cases.
Pieces 24" x 18" or larger consider as standard sheets, no cutting charge to be added. Pieces smaller than 24" x 18" quote price adding regular cutting charges.

One type, list price, with net price to the trade for resale.
Terms for the latter, COD or 2%, 10 days, net 30.
Discounts:
Same as 1st filing.

COMPANY #30

In making a filing, this company differs in its method of sale from other companies in the Industry inasmuch as they use the multiplier system, basing their percentage of discount to different purchasers on the quantity basis and classifying their purchases in nine different groups.

This is characteristic of the method of selling fractional horse power motors. This company is predominently a manufacturer of motors and it would appear that in entering the field of electric tools, they have merely carried over the system of merchandising used by them in the motor field rather than adopting the system in vogue in the electric tool field.

COMPANY #35

1st Filing

Received February 7, 1934.....Effective February 7, 1934.
Illustrated and descriptive catalog page of one type with discount sheet to 7 classes of purchasers, A, B, C, D, E, F and G, and defining Class A and B purchasers.

COMPANY #35 (Cont'd)

PANELBOARDS

APPENDIX

PANELBOARDS SCHEDULE #1

Under heading "Special Additions" change paragraph covering combination of single and 2 pole breakers or single and 2 pole tumbler switches to read as follows:

Lighting Panels with combination of 1 & 2 Pole circuits. To obtain price for panels having combinations of single and two pole circuit breakers, or combinations of single and two pole circuits, multiplied by two. With this equivalent number of single pole circuits, price in the regular manner and add 5%. For panels having combinations of single and two pole circuits under one door opening, but fed from separate bus bars, proceed to price as per the foregoing information and add to the price obtained $6.00 list for each split in bus bars required. For panels having combinations of single and two pole circuit breakers, but fed from separate bus bars, with each section under separate door, figure each section as a separate panel with its individual cabinet and main connection.

Note: Combinations having over 42 pole units must be split up and priced as separate panels under separate doors.

Add the following items:

Where standard panels are to have split buses add $6.00 list for each split.

Space to be added for additional circuits:

Figure the panel on the basis of the total number of circuits including panelboard circuits, and make the following deductions:

(a)	For circuit breaker panels	(1 Pole	$3.00
		(2 Pole	8.00
		(3 Pole	13.00
(b)	For tumbler switch and fuse panels deduct (per pole)		1.50

For combination pnaels having some circuits tumbler switched and some with fuses only in branch circuits, requiring only one door opening, list prices should be determined by figuring the panel as occupying the same space as an equivalent panel with tumbler switchesin all circuits, less a deduction of $1.00 list each for each tumbler switch omitted. If split bus bars are required between two dections, add $3.00 list as per above.

SCHEDULE 1

TERMS:

2% Cash 10 days from date of invoice, or
Where the number of invoices handled with a particular customer are of sufficient quantity, the following is general practice:
2% Cash or the 10th and 25th covering invoices rendered from the 16th through the 31st, and from the 1st through the 15th, respectively.
The above is provided no past-due items remain unpaid-otherwise net 30 days.

DELIVERY:

Net, F.O.B. point of shipment with freight allowed to all standard rail points in U. S. A. on shipments weighing 100 lbs. or more.

DISCOUNTS:	East Longitude 110°	West of Longitude 110°
Class I users.....	40%	35%
Class II users.....	50%	45%
*Class III users.....	50 - 10%	50 - 45%

CLASS I USERS:

a. Includes all purchasers not included under Classes II and III below; this classification consisting of a larger number of small users over a scattered location who have none or only limited engineering facilities and are the logical field of sale by the industrial electrical contractor.

CLASS II USERS:

a. Includes all electrical contractors and electrical contractor dealers.
b. Includes all users who continuously maintain an electrical maintenance and installation department.
c. Includes all Machinery Manufacturers who produce from their own or controlled patents, a complete electrically operated product to be equipped with panels as integral attached or detached parts, and sold as complete electrically operated units.
d. Includes all Federal, State, and Municipal Governments.
e. Includes all educational institutions.

CLASS III USERS:

a. Includes all electrical wholesalers as defined in separate definition of "Electrical Wholesaler."

DEFINITION OF TERM "ELECTRICAL WHOLESALER"

The term "Electrical Wholesaler", known in the industry as a distributor or jobber, is defined to mean a person, firm or corporation performing the functions hereinafter mentioned, not less than 75% of whose total annual electrical business is the purchasing and reselling of electrical products (exclusive of second-hand products) to dealers for resale, to electrical contractors, to steam and electric car railroads, to electric utility

---

* A discount of 50-16% east of longitude 110°, and a discount of 45-16% west of longitude 110°, will be allowed on standard list catalogue numbers of these types of panelboards when the jobbers ship from stock either all, or part of such panelboards, to the purchaser and such discounts apply only on the panelboards, to which his stock shipments apply.

SCHEDULE 1 (Continued)

companies, to Federal and State Governments and Municipalities, to industrial companies which have electrical maintenance departments and to manufacturers requiring electrical materials in the fabrication of their products.

Provided, however, such person, firm or corporation performs the following functions, but does not perform such wholesale functions merely to secure wholesale prices for the benefit of allied persons, firms or corporations.

1. Maintains and warehouses a stock of all such standard electrical products sufficient to adequately serve the electrical requirements of his customers.
2. Maintains a showroom to properly display products for the benefit of the trade.
3. Maintains delivery service and facilities for pick-up service.
4. Maintains a selling organization trained to promote, specify and quote on electrical products and to properly handle matters of service with his customers.
5. Extends justified credit to the buyers within his territory upon reasonable terms.

SCHEDULE 1 A

DISCOUNTS:	East of Longitude 110°	West of Longitude 110°
Class A Users	40-5%	35-5%

APPENDIX A, PART 13d

POLE LINE HARDWARE

Chronological Record of Price
Filings by Companies

POLE LINE HARDWARE AND CONSTRUCTION SPECIALTIES

PRICE FILING STUDY

The Pole Line Hardware and Construction Specialties Industry is defined by the Price Call as follows:

"Pole Line Hardware and Construction Specialties, consisting of those metal products which are applicable for usage in and with cross arms, wires and poles as used for the transmission and distribution of electrical energy and communication lines."

There are twelve companies engaged in the manufacture of some or all of the products of this industry. Six members of this industry have cooperated with each other over a period of years through being members of the National Electrical Manufacturing Association and otherwise.

The Price Call issued under date of May 23, 1934 and prices were to be filed on or before June 7, 1934. As many of the members of the industry stated that the task of compiling price lists, discount sheets, terms etc. was a large and lengthy operation and that they would not be in a position to send their filings to the Supervisory Agency by the date required in the Price Call, the effective date was extended until June 19, 1934.

This industry divided the United States into three geographical areas for the purpose of doing business. These geographical areas are respectively, Eastern Division, Western Division or Pacific Coast Division and the Arizona Division. The Eastern Division comprised all of the United States with the exception of the Western Division and the Arizona Division. The Western Division comprised the states of California, Oregon and Washington and also parts of the following states: Idaho,-Counties of Benewah, Bonner, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, Shoshone; Montana,-Counties of Flathead, Lake (northern half and Lincoln; Nevada,-all counties except Counties of Elko, Eureka, Lincoln and White Plains. The Arizona Division comprised the state of Arizona.

The following shows the number of companies making filings in the various divisions:

All three divisions	- 3 companies
Western and Arizona Division	- 1 company
Eastern Division	- 7 companies
Western Division	- 1 company

Prices, terms and other conditions of sale varied in each of the three geographical areas. However in any one area, at any given time, the prices, terms and conditions of sale of all competing companies were the same.

The following are one company's prices on the same items either at different times in the same locality or in different localities; all prices are per hundred items:

Eastern Filing effective June 19, 1934.

$50.00 or less	$50.01 - $150	$150.01 or over
74.00	64.80	61.70
61.30	53.70	51.10
67.00	58.60	55.80

Eastern Filing effective August 13, 1934.

$25.00 or less	$25.01 or over
71.70	61.70
59.40	51.10
64.90	55.80

Western Division effective September 23, 1934.

Less than Standard Package	Standard Package or over
$82.65	$71.90
70.80	61.60
76.55	66.60

Arizona Prices effective November 12, 1934

Less than Standard Package	Standard Package and over
$85.95	$74.75
76.90	66.90
82.30	71.60

It can be seen from the foregoing that the Western Division prices were higher than those in the Eastern Division, while the Arizona Division prices exceeded those of the Western Division.

Approximately the same differential in prices between the three geographical locations as shown above, prevailed on all items. The filings by members of this industry made but very few changes in the list price as originally filed for each geographical area. Most of the changes only affected terms of payment.

In conclusion, there is one fact which warrants comment. While the last date for the filing of prices was June 19, 1934, the first filing of any company in the Western Division was not effective until September 24, 1934 and the first filing in the Arizona territory was not effective until November 12, 1934. Therefore, technically, all members of this industry were in violation of the Electrical Manufacturing Industry Code on sales made in the Western Division between June 19, 1934 and September 24, 1934, and in the Arizona Division, on sales made between June 19, 1934 and November 12, 1934. No explanation of these lapses in filing has been found.

- P.E. - Plain Enamel
- S.P.E. Heavy plain enamel
- S.C.E. Single cotton enamel
- D.C.E. Double cotton enamel
- S.C.C. Single cotton covered
- D.C.D. Double cotton covered
- S.S.C Single silk covered
- D.S.C. Double silk covered
- S.S.E. Single silk enamel
- P.C. Paper covered
- C.B. Cotton braid
- C.W. Cotton wrapped
- T.C.P.C. Triple covered purified cotton
- T.C.S.B. & P.C. Triple covered special bleached & paper covered
- S.P. Single paper
- T.C.C. Triple cotton covered
- T.N. Tinned enamel
- L. "Litz"
- L.S.C.E. Litz Single cotton enamel
- C.L. Cellophane insulated
- B.P. "Barberpole"
- B.P.T.C. Barberpole textile covered
- D.C.C.T. Double cotton covered twin
- O.F.H.C. Oxygen free high conductivity

1. The above represents typical method of calculating net prices for various shapes, types and sizes of Magnet Wire. To Base Price, representing cents per pound, shown at left, is added the extras in cents per pound for the different kinds of wire depending on size and shape. Extra charges are made in addition for Colors, Colored Tracers, Magnet Wire shipped in coils instead of on reels and various combinations of different sizes, coverings and treatments. Certain additions or deductions are made for quantity lots, and terms of delivery are determined by quantity method of shipment (whether on spools or reels, in coils or in coils packed in cases), point of shipment and destination. The above method of computation is representative of five of the largest manufacturers in the industry although fifteen additional companies filing prices use practically the same method with minor changes.

2. Standard round wire is manufactured in A.W.G. sizes from 4/0 to 40 and in types as follows:

   P.E., H.P.E., S.C.E., D.C.E., S.C.C., D.C.C. S.S.C., D.S.C., S.S.E.
   Standard square wire is manufactured in A.W.G. sizes from 1/0 to 14 in D.C.C.
   Standard rectangular wire is manufactured in sizes from .410 to .020 in thickness, by .460 to .0624 in width and in D.C.C.

3. Besides the above standard sizes, wires of special construction are made on order combining different shapes, types, sizes and treatments. Following is a list of some of the Magnet Wire of Special Construction manufactured:

   Round, Square and Rectangular Triple Cotton Covered:
   Add 50% to the differential for D.C.C. for the same size.

   Round, Square and Rectangular Quadruple Cotton Covered:
   Add 100% to the differential for D.C.C. for the same size

   Rectangular Double Cotton Covered Enamel:
   Add 10¢ to the differential for Rectangular D.C.C. for the same size.

   Rectangular or Square Plain Enamel or Single Cotton Covered:
   Deduct 10% from the differential for rectangular or square D.C.C. for the same size.

   Rectangular or Square Heavy Plain Enamel or Single Cotton Enamel:
   Use the differential for Rectangular or Square D.C.C. for the same size.

   Single or Double Cotton Heavy Enamel:
   Add to the differential for S.C.E. or D.C.E. the difference between the differentials for P.E. and H.P.E. for the same wire.

   Single Silk Heavy Enamel:
   Add to the differential for H.P.E. the difference between the differentials for P.E. and S.S.E. for the same wire.

   Double Silk Enamel:
   Add to the differential for S.S.E. the difference between the differentials for S.S.C. and D.S.C.

   Triple Silk Enamel:
   Add to the differential for S.S.E. twice the difference between the differentials for S.S.C. and D.S.C.

   Twin Conductor Magnet Wire Differentials:
   (a) Consisting of one P.E. and one S.C.E. with a single covering of cotton over the two wires. Add 15% to the differential for S.C.E.

   (b) Consisting of one S.C.E. white and one S.C.E. tracer wound parallel without an outside serving of cotton. Add 15% to the differential for S.C.E.

   (c) Consisting of one S.C.E. white and one S.C.E. tracer wound parallel with a single outside serving of cotton. Add 30% to the differential for S.C.E.

3. Continued

   Two Plain Enameled Wires Laid Parallel and Single Cotton Covered:
   Add to the Magnet Wire base price the differential for S.C.E. for the size of the individual wire

   Combination of Cotton and Silk:
   For silk over cotton use the differentials for S.C.C. plus 1, times the difference between the differentials for S.S.C. and D.S.C. For cotton over silk use the differentials for S.S.C. plus 7/4 times the difference between the differentials for S.C.C. and D.C.C

   Proofing:
   Add 1¢ per pound to the differential for size and construction

   Varnished or Lacquered:

   For textile covered Magnet Wire with the covering treated with lacquer or varnish add 5¢ to the differential for the size and insulation to be so treated.

   Tinned Magnet Wire:
   The differential for any Cotton Insulated wire of Round or Square Tinned Magnet Wire is determined by adding the difference between the differentials for Bare and Tinned Copper Wire per current published Bare and Weatherproof Wire and Cable price list.

   For Cotton Insulated Rectangular Magnet Wire use the main differential for Round Wire similar in diameter to the thinner dimensions of the Rectangular Wire

   For Tinned Rectangular Magnet Wire use difference between differential for Bare and Tinned Copper Wire per current published Bare and Weather proof Wire Wire and Cable price list less 05¢ per pound

   Bonded Cotton, Silk or Paper Insulation:
   Add 1. to the total price of standard unbonded types.

   Spaced or "Barberpole" Textile Covered:
   Use the published rates for the same size standard construction.

   Stranded Magnet Wire
   Wire composed of stranded bare wire with textile covering over all.
   Add to the Magnet Wire base price 33-1/3. of the differential for the individual size wire for the same type of insulation as the completed conductor.

   Two Round Bare Copper Wires Laid Parallel and Double Cotton Covered:
   Add 1.50¢ per lb. to the differential for Round D.C.C. of the same size as the individual wire

   Three Round Bare Copper Wires Laid Parallel and Double Cotton Covered:
   Add 1¢ per lb. to the differential for Round D.C.C. of the same size as the individual wire.

   Round Magnet Wire Wound Parallel on Spools:
   2 wires wound parallel 1¢ per lb. extra, 3 wires wound parallel 1.50¢ per lb extra.

   Magnet Wire between gauges these extra for next smaller gauge.

4. Bare and Weatherproof

   Bare Copper rod Cable soft drawn and weatherproof wire and cable soft drawn triple braid are figured on different bases from Magnet Wire, the Base Price depending on points of shipment.

5. Alloy Wire and Cable is manufactured under three groups:

   Group 1
   Silicon Bronze
   Calcium "
   Signal "
   Trolley " 40%

   Bare Wire & Cable
   Hitenso Bronze "S"
   Trolley " 05¢
   Hitenso " "BH"
   Hitenso " "A"

5. Continued

   Group 2
   Trolley Bronze 40%
   Hitenso " "S"
   Trolley " 05¢

   Group 3
   Hitenso "BH"
   Hitenso "A"
   Silicon Bronze

   Round Trolley Wire
   Hitenso Bronze "BH"
   " "A"

   Hard Drawn Alloy Weatherproof Wire

See O 10161 FILING OF FRACTIONAL HORSE POWER MOTORS SHEET B

N O T E S

(ORIGINAL FILINGS Of FRACTIONAL HORSE POWER MOTORS)

Class A - Users whose power requirements are limited or whose business is merely local in scope, or who purchase power as an incidental adjunct.

Class B - Users doing an interstate business in an extensively motorized industry and purchase motors at an average rate over a three year period of $2,000.00 or more annually.

Class C - Central stations and central station holding companies buying motors for sale to non-affiliated companies

Class D - Resale motor dealers having agreements with motor manufacturers.

DQ - Discount to Class D purchasers only, based on aggregate net value of orders placed annually:

Amount	Discount $	Discount on Excess $
$2,500	1½	2½
5,000	2	3
10,000	2½	3½
20,000	3	4½
30,000	3½	5½
40,000	4	6½
50,000	4½	6
75,000	5	9
100,000	6	7½
150,000	6½	8½
200,000 and over	7	

Class E - Resale purchasers not otherwise classified.

Class F - Federal, State and Municipal Governments.

Class G - Bona fide resale machinery manufacturers who install motors in products manufactured by them.

GQ - Discount to Class G purchasers based on dollar value of order and shipping requirement:

Discount	Value of Order	Shipping requirement
7%	$1,500 or more	90 day delivery and unit shipment of 10 or more motors
15%	10,000 or more	Shipment of 50 or more motors
18%	10,000 or more	Unit shipment amounting to $10,000 or more

GAQ - Discount to Class G purchasers only, based on quantity of motors purchased in one year:

Number of Motors	Discount $
2500	3
5000	5
7500	6
15000	9
25000	10
35000	11
50000	12
75000	13
100000	14

GLQ - Note #1 - Discounts to Class G:

Late	Discount $
1	25%
2	25-5
3-9	25-10
10-49	25-15
50-199	25-20
200 and over	25-25
Monthly schedule	50

Class H - Authorized machinery dealers who are resale outlets for machinery manufacturers (Class G)

I - Discounts to bona fide educational institutions for instructive purposes.

J - Class B, C and H multipliers (applies to specific purchasers and is larger than and in lieu of classification discount). Range 1 to 5.5%.

K - Additional discounts to some Class G purchasers on specific motors. (Range 3 to 14%).

L - Ten percent discount for unit shipment of 10 or more motors.

M - Jobbers and distributors

MQ - Annual quantity discount to all purchasers:

Amount	Discount $
$ 1,000 to 2,999	2
3,000 to 4,999	3
5,000 to 9,999	4
10,000 to 14,999	5
15,000 to 19,999	6
20,000 to 24,999	7½
25,000 and more	10

Note P #2 - Gives to certain industries rather than individuals.

Note R #3 - Discount Schedule:

Manufacturing (Class A)	25%
Dealers	40
Dealers $2,000 or more 6 months	45
Jobbers less than $50,000 per year	52
Jobbers more than $50,000 per year	22-42
Mfg.(Class G) using less than $50,000 per year	22-42
Mfg.(Class H) using more than $50,000 per year	25-42

Note #4 - Class G discount:

Annual purchases			less than $	50,000	20%
"	"	"	of	50,000	21
"	"	"		75,000	22
"	"	"		150,000	23
"	"	"		250,000	24
"	"	"		500,000	25

In addition to the foregoing, Company #24 gives any purchaser other than Class G the following quantity discounts:

Annual purchases of	$ 50,000	11%
" " "	75,000	12
" " "	150,000	13
" " "	250,000	14
" " "	500,000	15

Note #5 - Discounts to Class G:

Unit Shipment or Annual Value	Discount $
Less than 10	25
10-49 less than $5,000	25
50-199 $5,000 - 20,000	28
Over 199 20,000 - 75,000	32
Over 75,000	36

Note #6 - Unit shipment of late of 10 to 24 - Additional discount - 5%
" " " 25 or more - " " 10%

Note #7 - In late 1 to 9 - 30%
" " 10 to 100- 35%

Note #8 - Same as Company #10.

No asterisk * denotes that the filing includes the subject matter contained in the heading of the column.

$ 1 - Shipping - FOB factory, freight allowed to destination.

$ 2 - FOB factory

T 1 - Net 30 days

T 2 - 2% 10 days, net 30.

NOTES

(FINAL FILINGS OF FRACTIONAL HORSE POWER MOTORS)

Class A - Users whose power requirements are limited or whose business is merely local in scope or who purchase power as an incidental adjunct.

A-1 - Discounts:

Orders less than $500	List
Individual Orders 500 - $999	10%
" " 1000 - 4999	12½%
" " 5000 or more	16%

Class B - Doing an interstate business in an extensively motorized industry and purchase motors at an average rate over a 3 year period of $2,000 or more annually.

Class C - Central stations and central station holding companies buying motors for sale to non-affiliated companies.

Class D - Resale motor dealers having agreements with motor manufacturers.

DQ - Class D discounts (unchanged).

Class E - Resale purchasers not otherwise classified.

Class F - Federal, State and Municipal Governments.

Class G - Bona fide resale machinery manufacturers who install motors in products manufactured by them.

GB - Class G purchasers whose purchases from a single company have averaged $2,000 or more annually during 1931, 1932 and 1933 or 1932, 1933 and 1934.

GQ - Discount to Class G purchasers based on dollar value of order and shipping requirements:

Discount	Value of Order	Shipping Requirements
20%	$1.000 or over	(Same in all classes)
30%	3,000	Unit shipment $150.00 (book value) and complete order in 90 days.
35%	8,000	"
42%	16,000	"

Class H - Authorized machinery dealers who are resale outlets for machinery manufacturers (Class G).

HB - Class H purchasers whose purchases from a single company have averaged $1,000 net or more annually during 1931, 1932 and 1933 or 1932, 1933 and 1934.

Class I - Bona fide educational institutions for instruction purposes.

J - Class HC and G multipliers.

K - Additional discount to some Class G purchasers.

L - Ten percent discount on unit shipment of at least $150.00 (List) to one destination.

M - Jobber and Distributor.

Note #1 - No change from original filing.

#2 - Resale machinery manufacturers branches and distributors 25%.

#3 - Discounts allowed all classes of customers if shipment to be completed within 3 months
Range of units 15-500 or over. Range of discount 10% to 30%.
Range of value $200.00 - $12,000.00 or over. Range of discount 10% to 35%.
Shipment to be completed in six months.
Range of units 25 to 1000 or over. Range of discount 10% to 35%.
Range of value $1000.00 to $50,000.00 and over. Range of discount 10% to 35%

#4 - Discount allowed all classes of customers.
Range of units 10-150 and over. Range of discount 10-20%.

#5 - Discount Schedule:
Manufacturers (Class A) 25%; Dealers 50%; Dealers $2000 list 6 mos. 52%; Jobbers who purchase less than $50,000 annually 52%; Jobbers who purchase more than $50,000 annually 22 and 42%; Manufacturers - See Note #1.

#6 - Discounts on quantity shipment within 90 days: $1,000 list - 5%; $2,500 list - 7½%; $5,000 list - 10%.

#7 - Extra quantity discount to Class G 1/15/35: Units 10-24 - 3%: Units 25-49 (Within 90 days) - 5%; Units 50-99 (Within 90 days) - 8%; Units 100-399 (Within 90 days) - 10%; Over 400 (Within 90 days) - 15%.

#8 - This company allowed discounts to all purchasers based on quantity of motors. Discount ranged from 20% on purchase of one motor to 57% on purchase of 5001 and over motors to be shipped in 90 days in unit shipments of 100 motors.

#9 - In addition to #8. Lots 25 or more, one month shipment - 35 - 10%.

An asterisk * denotes that the filing includes the subject matter contained in the heading of the column.

S 1 - Shipping - FOB factory, freight allowed to destination.

S 2 - FOB factory.

T 1 - Net 30 days.

T 2 - 2% 10 days net 30.

Legend:

The price filings on the items examined are listed on the chart in numbers as follows:

(1) Extra Heavy Duty "Radio B"

(2) Large Yoke Cell

(3) #6 Ignition

(4) 3 Cell searchlights ● about 50-60¢ each Nickel-Plated.

& - plus sign.

● - (1)

●●●● - (2)

Cities are mentioned on the chart by numbers The numbers corresponding to the cities so mentioned are as follows:

EAST 1-10

1. New York
2. Jersey City
3. Hoboken
4. Atlanta
5. Niagara Falls
6. Philadelphia
7. Jacksonville
8. New Haven
9. Springfield, Mass.
10. Clinton, Mass

EAST CENTRAL 20-30

21. Lancaster, Ohio
22. Cleveland
23. Pittsburgh
24. Memphis, Tenn
25. Detroit

MIDWEST 40-50

41. Chicago
41A. Indianapolis
42. St Paul
42A. East Alton, Ill.
43. Huston Tex.
44. Wausau Wis.
45. Minneapolis
46. Kansas City
47. Freeport, Ill.
48. Madison, Wis.
49. Dallas, Tex.

WEST 50 -

50. San Francisco
51. Los Angeles
52. Seattle
53. Portland
54. Fremont, Cal.
55. Oakland, Cal.
56. Oaklahoma, City

The key to the lists and symbols on the chart is as follows:

A - Freight allowed on shipment of 100# or over. Less than 100# F.O.B. point of shipments or cities indicated by number.

B - 10% Discount allowed for consideration of quality, quantity, or in cost of selling or transportation.

C - Credit of ½¢ per cell allowed for extensions of prices to certain customers classifications.

D - Delivery by Wholesalers and Jobbers optional.

F - F.O.B. Destination.

W - And/or

CL - Discount on carload quantities.

DCQ - F.O.B. Destination in Carload quantities. Less than Carload, F.O.B. point of shipment or Cities indicated by numbers.

DSD - F.O.B. Cities. Direct shipment to Dealers F.O.B. Point of shipment or cities indicated by numbers.

DSD & 10% - Direct shipment to dealer carrier's 10% service charge.

LSQ & 10% - Orders for less than standard package quantity carrying 10% service charges.

Legend

The price filings on the items examined are listed on the chart in numbers as follows:

(1) Extra Heavy Duty "Radio B"

(2) Large Mono Cell

(3) #6 Ignition

(4) 3 Cell searchlights @ about 50-60¢ each Nickel Plated.

A - blue sign

@ - (1)

**** - (2)

Yo--

Cities are mentioned on the chart by numbers. The numbers corresponding to the cities so mentioned are as follows:

EAST 1 -.10

1. New York
2. Jersey City
3. Hoboken
4. Atlanta
5. Niagara Falls
6. Philadelphia
7. Jacksonville
8. New Haven
9. Springfield, Mass.
10. Clinton Mass.

EAST CENTRAL 20-30

21 Lancaster, Ohio
22. Cleveland
23. Pittsburgh
24. Memphis, Tenn.
25. Detroit

MIDWEST 40-50

41. Chicago
41A Indianapolis
42 St. Paul
42A East Alton, Ill.
43 Houston, Tex.
44. Wausau, Wis.
45. Minneapolis
46. Kansas City
47. Freeport, Ill.
48. Madison, Wis.
49. Dallas Wis.

WEST 50 -

50. San Francisco
51. Los Angeles
52. Seattle
53. Portland
54. Fremont Cal.
55. Oakland, Cal.
56. Oaklahoma. City

The key to the lists and symbols on the chart is as follows:

A - Freight allowed on shipment of 100# or over. Less than 100# F.O.B. point of shipment or cities indicated by number.

B - 10% Discount allowed for consideration of quality, quantity, or in cost of selling or transportation.

C - Credit of ½¢ per cell allowed for extension of prices to certain customers classifications.

D - Delivery by Wholesalers and Jobbers optional.

F - F.O.B. Destination.

v - And/or

CL - Discount on carload quantities.

DCQ - F.O.B. Destination in Carload quantities. Less than Carload, F.O.B. point of shipment or Cities indicated by numbers.

DSD - FOB Cities. Direct shipment to Dealers F.O.B. Point of Shipment or cities indicated by numbers.

DSD & 10% - Direct shipment to dealer carrier's 10% service charge.

LSQ & 10% - Orders for less than standard package quantity carrying 10% service charges.

#6 DRY CELL

Co. #33	X		• (Jobber)	•							I	1/10 net 30								•no shipping allowance	•Company has very distinctive system of variable discounts based on quantity as well as type of socket. Ranges from 25% - 50-10%

LEGEND

NOTE:
F.A.-Freight allowance
R #.V.-Regardless of weight or value
Std. - Standard Package
Cn. - Carton quantities
LCs. - Less than standard package quantities

"A" under DISCOUNTS indicates that 1 standard package plus 5 or more cartons will be billed at standard package rates.

"A" under DELIVERY indicates Freight allowed on shipments over 100 pounds. Express allowed at freight rates.

Under LINE OF SOCKETS "I" indicates that the company does not list a complete line of sockets - "C" denotes a complete line.

is used in place of "plus".

Under TERMS abbreviations were necessary, thus: 2/10 d.o.i. means 2% discount if paid in full 10 days from date of invoice, 2% 1-15/25, 16-31/10 prox. means 2% discount on invoices dated 1st to the 15th

LEGEND

F.A.-Freight allowance
N.Y.V.-Regardless of weight or value
NOTE: Std. - Standard Package
Cn. - Carton Quantities
LCa.- Less than standard package quantities.

"A" under DISCOUNTS indicates that 1 standard package plus 5 or more cartons will be billed at standard package rates.

"A" under DELIVERY indicates Freight allowed on shipments over 100 pounds. Express allowed at freight rates.

Under "LINE OF SOCKETS" "I" indicates that the company does not list a complete line of sockets . "C" denotes a complete line.

is used in place of "plus".

Under TERMS, abbreviations were necessary, thus: 2/10 d.o.i. means 2% discount if paid in full 10 days from date of invoice, 2% 1-15/25, 16-31/10 prox. means 2% discount on invoices dated 1st to the 15th.

OFFICE OF THE NATIONAL RECOVERY ADMINISTRATION
THE DIVISION OF REVIEW

THE WORK OF THE DIVISION OF REVIEW

Executive Order No. 7075, dated June 15, 1935, established the Division of Review of the National Recovery Administration. The pertinent part of the Executive Order reads thus:

> The Division of Review shall assemble, analyze, and report upon the statistical information and records of experience of the operations of the various trades and industries heretofore subject to codes of fair competition, shall study the effects of such codes upon trade, industrial and labor conditions in general, and other related matters, shall make available for the protection and promotion of the public interest an adequate review of the effects of the Administration of Title I of the National Industrial Recovery Act, and the principles and policies put into effect thereunder, and shall otherwise aid the President in carrying out his functions under the said Title. I hereby appoint Leon C. Marshall, Director of the Division of Review.

The study sections set up in the Division of Review covered these areas: industry studies, foreign trade studies, labor studies, trade practice studies, statistical studies, legal studies, administration studies, miscellaneous studies, and the writing of code histories. The materials which were produced by these sections are indicated below.

Except for the Code Histories, all items mentioned below are scheduled to be in mimeographed form by April 1, 1936.

THE CODE HISTORIES

The Code Histories are documented accounts of the formation and administration of the codes. They contain the definition of the industry and the principal products thereof; the classes of members in the industry; the history of code formation including an account of the sponsoring organizations, the conferences, negotiations and hearings which were held, and the activities in connection with obtaining approval of the code; the history of the administration of the code, covering the organization and operation of the code authority. the difficulties encountered in administration, the extent of compliance or non-compliance, and the general success or lack of success of the code, and an analysis of the operation of code provisions dealing with wages, hours, trade practices, and other provisions. These and other matters are canvassed not only in terms of the materials to be found in the files, but also in terms of the experiences of the deputies and others concerned with code formation and administration.

The Code Histories, (including histories of certain NRA units or agencies) are not mimeographed. They are to be turned over to the Department of Commerce in typewritten form. All told, approximately eight hundred and fifty (850) histories will be completed. This number includes all of the approved codes and some of the unapproved codes. (In Work Materials No 18, Contents of Code Histries, will be found the outline which governed the preparation of Code Histories.)

(In the case of all approved codes and also in the case of some codes not carried to final approval, there are in NRA files further materials on industries. Particularly worthy of mention are the Volumes I, II and III which constitute the material officially submitted to the President in support of the recommendation for approval of each code. These volumes

set forth the origination of the code, the sponsoring group, the evidence advanced to support the proposal, the report of the Division of Research and Planning on the industry, the recommendations of the various Advisory Boards, certain types of official correspondence, the transcript of the formal hearing, and other pertinent matter. There is also much official information relating to amendments, interpretations, exemptions, and other rulings. The materials mentioned in this paragraph were of course not a part of the work of the Division of Review.)

THE WORK MATERIALS SERIES

In the work of the Division of Review a considerable number of studies and compilations of data (other than those noted below in the Evidence Studies Series and the Statistical Material Series) have been made. These are listed below, grouped according to the character of the material. (In Work Materials No. 17, Tentative Outlines and Summaries of Studies in Process, these materials are fully described).

Industry Studies

Automobile Industry, An Economic Survey of
Bituminous Coal Industry under Free Competition and Code Regulation, Economic Survey of
Electrical Manufacturing Industry, The

THE EVIDENCE STUDIES SERIES

The Evidence Studies were originally undertaken to gather material for pending court cases. After the Schechter decision the project was continued in order to assemble data for use in connection with the studies of the Division of Review. The data are particularly concerned with the nature, size and operations of the industry; and with the relation of the industry to interstate commerce. The industries covered by the Evidence Studies account for more than one-half of the total number of workers under codes. The list of those studies follows:

Automobile Manufacturing Industry
Automotive Parts and Equipment Industry
Baking Industry
Boot and Shoe Manufacturing Industry
Bottled Soft Drink Industry
Builders' Supplies Industry
Canning Industry
Chemical Manufacturing Industry
Cigar Manufacturing Industry
Coat and Suit Industry
Construction Industry
Cotton Garment Industry
Dress Manufacturing Industry
Electrical Contracting Industry
Electrical Manufacturing Industry
Fabricated Metal Products Mfg. and Metal Finishing and Metal Coating Industry
Fishery Industry
Furniture Manufacturing Industry
General Contractors Industry
Graphic Arts Industry
Gray Iron Foundry Industry
Hosiery Industry
Infant's and Children's Wear Industry
Iron and Steel Industry
Leather Industry
Lumber and Timber Products Industry
Mason Contractors Industry
Men's Clothing Industry
Motion Picture Industry
Motor Vehicle Retailing Trade
Needlework Industry of Puerto Rico
Painting and Paperhanging Industry
Photo Engraving Industry
Plumbing Contracting Industry
Retail Lumber Industry
Retail Trade Industry
Retail Tire and Battery Trade Industry
Rubber Manufacturing Industry
Rubber Tire Manufacturing Industry
Shipbuilding Industry
Silk Textile Industry
Structural Clay Products Industry
Throwing Industry
Trucking Industry
Waste Materials Industry
Wholesale and Retail Food Industry
Wholesale Fresh Fruit and Vegetable Industry
Wool Textile Industry

THE STATISTICAL MATERIALS SERIES

This series is supplementary to the Evidence Studies Series. The reports include data on establishments, firms, employment, Payrolls, wages, hours, production capacities, shipments, sales, consumption, stocks, prices, material costs, failures, exports and imports. They also include notes on the principal qualifications that should be observed in using the data the technical methods employed, and the applicability of the material to the study of the industries concerned. The following numbers appear in the series:
9768—5.

Asphalt Shingle and Roofing Industry
Business Furniture
Candy Manufacturing Industry
Carpet and Rug Industry
Cement Industry
Cleaning and Dyeing Trade
Coffee Industry
Copper and Brass Mill Products Industry
Cotton Textile Industry
Electrical Manufacturing Industry
Fertilizer Industry
Funeral Supply Industry
Glass Container Industry
Ice Manufacturing Industry
Knitted Outerwear Industry
Paint, Varnish, and Lacquer, Mfg. Industry
Plumbing Fixtures Industry
Rayon and Synthetic Yarn Producing Industry
Salt Producing Industry

THE COVERAGE

The original, and approved, plan of the Division of Review contemplated resources sufficient (a) to prepare some 1200 histories of codes and NRA units or agencies, (b) to consolidate and index the NRA files containing some 40,000,000 pieces, (c) to engage in extensive field work, (d) to secure much aid from established statistical agencies of government, (e) to assemble a considerable number of experts in various fields, (f) to conduct approximately 25% more studies than are listed above, and (g) to prepare a comprehensive summary report.

Because of reductions made in personnel and in use of outside experts, limitation of access to field work and research agencies, and lack of jurisdiction over files, the projected plan was necessarily curtailed. The most serious curtailments were the omission of the comprehensive summary report; the dropping of certain studies and the reduction in the coverage of other studies; and the abandonment of the consolidation and indexing of the files. Fortunately, there is reason to hope that the files may yet be cared for under other auspices.

Notwithstanding these limitations, if the files are ultimately consolidated and indexed the exploration of the NRA materials will have been sufficient to make them accessible and highly useful. They constitute the largest and richest single body of information concerning the problems and operations of industry ever assembled in any nation.

L. C. Marshall,
Director, Division of Review.
